

PACE

Property Assessed Clean Energy

Creating jobs through accessible and affordable energy upgrades

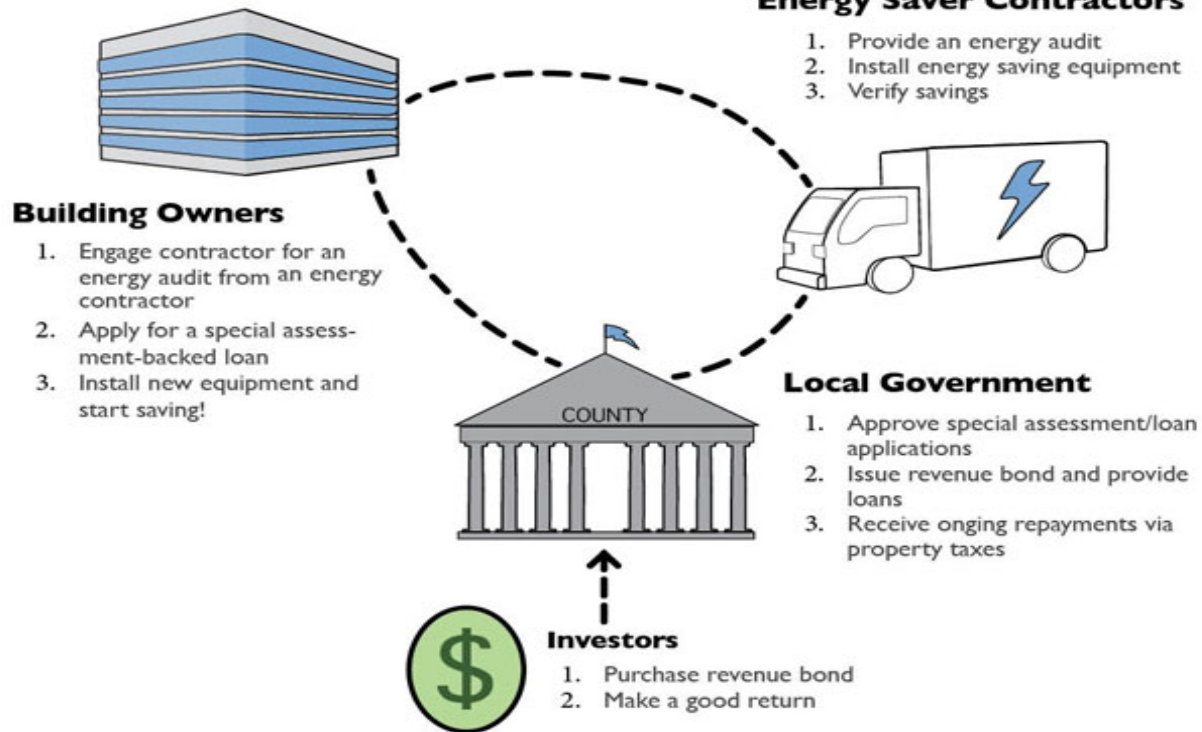

Our Goal

Have our community adopt a commercial
PACE program

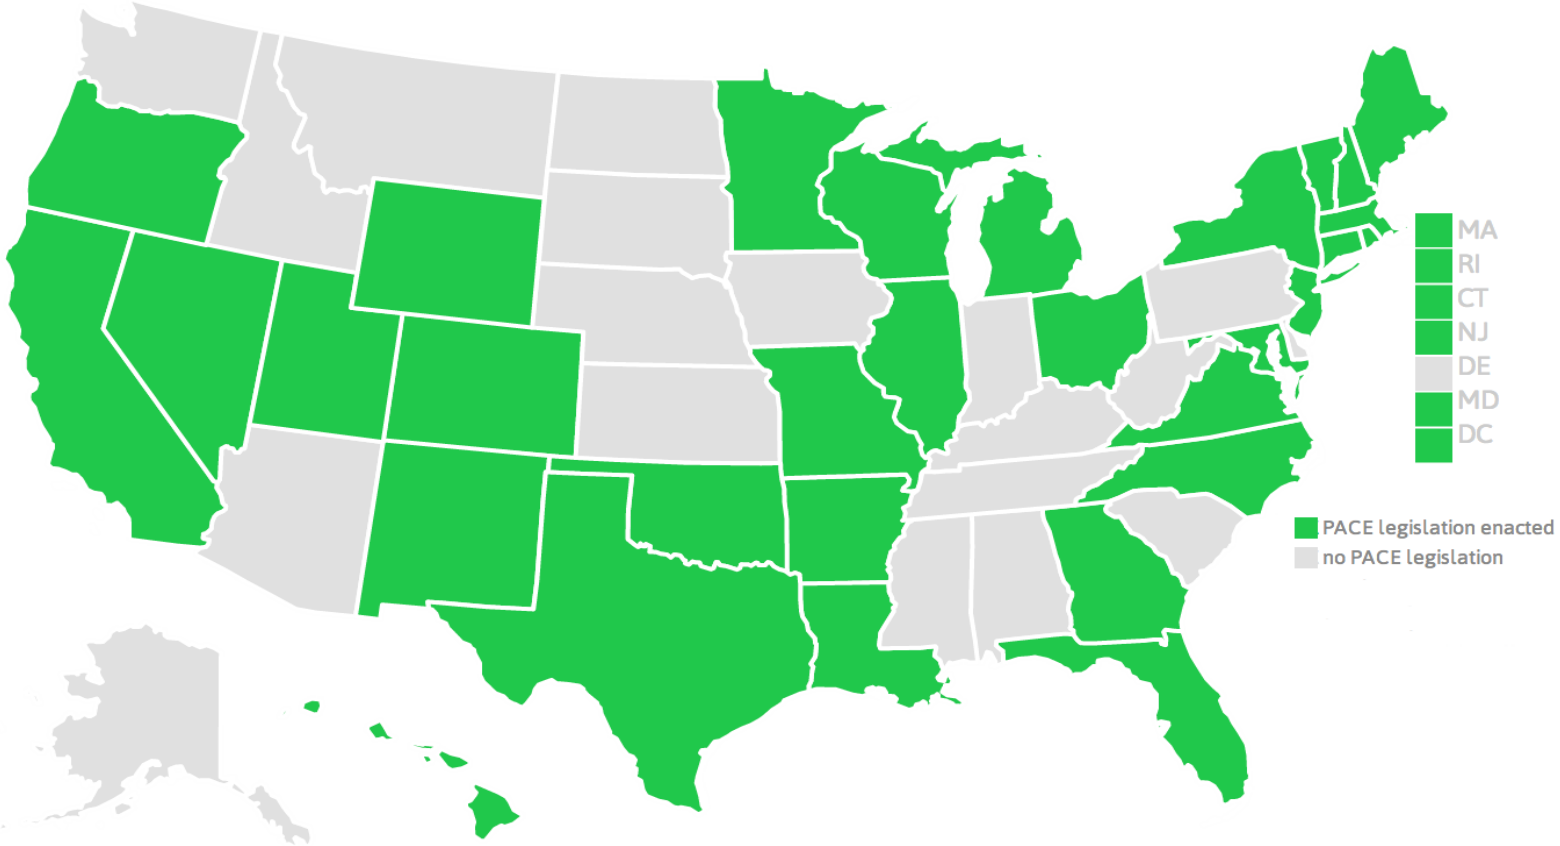

What is PACE?

Voluntary financing of energy efficiency, renewable energy, water efficiency and wind resistance projects by local governments or the private sector

HOW DOES IT WORK?

States with active PACE legislation

PACE Supports Local Jobs

- PACE projects support local contractors and suppliers
- PACE property owners pay less in utility bills, use excess savings to pay for other needs
- PACE attracts and retains local businesses

PACE Programs in Florida

4 PACE programs currently active or in development:

- [Florida Green Energy Works](#)- Lantana, Mangonia Park, West Palm Beach, Boynton Beach, Delray Beach, Lake Worth, Tequesta, Fellsmere, Stuart, Gulfport, Martin County, Broward County
- [Florida PACE Funding Agency](#)- Flagler County, Kissimmee, Nassau County
- [Solar Energy Loan Fund](#)- St Lucie County, Fellsmere, Sebastian, Stuart
- [Ygrene](#)- Cutler Bay, Pinecrest, Miami Shores, Palmetto Bay, South Miami, Miami, Cape Coral

Next Steps

1. Placed on agenda for next joint City/County meeting
2. Appoint staff and existing advisory committee to evaluate PACE programs
3. Determine PACE parameters
4. Presentations by PACE programs
5. Request For Proposals(RFP) to choose provider or create program
