2. Executive Summary and Technical Proposal

Weeks Auction Company, Inc. holds a consignment auction every month. The auction is held at our 33 acre facility located in Ocala Fl. and consists of over 1500 items sold for 200+ consignors. Buyers come from the Eastern and Mid - Western United States, Canada, Mexico and several Latin and South American countries. Throughout the year Weeks also conducts sales for others at their locations. The number of auctions vary from year to year, but on average we conduct 20 large auctions a year. Weeks Auction Company has conducted the last 25 City of Jacksonville Surplus Auctions including the sale of Wolfson Ballpark.

Weeks Auction Company, Inc. has in the past 25 years conducted many successful auctions. These auctions have included the purchase of The Jacksonville Shipyards fixed assets (brochure enclosed) and the auction of these items. This particular auction consisted of over 4000 items sold in 4 consecutive days. Personnel needed for this auction consisted of over 70 employees. The setup and auction was completed on schedule as was the removal of purchases by the buyers. The sheer number of items and the successful completion of the auction, should show our ability to conduct a very complex project.

In the past 3 years Weeks Auction has sold over \$935,000.00 worth of equipment for the City of Gainesville (in Gainesville and Ocala) as their Auction Vendor. The JEA (Jacksonville Electric Authority) , JAA, Duval County Public Schools, JAXPORT, Jefferson Smurfit, Citrus County, Seminole Electric, St Johns Water Management, Gainesville Regional Airport Ford New Holland Credit, United States Sugar Corp., SunTrust Bank, U.S. Dept. of Agriculture and many area Banks, individual business' and farms. These sales have been conducted in different areas of the southeastern United States.

Weeks Auction Company, Inc. will conduct an auction to a professional standard that is unmatched in the Municipal, Industrial, Construction and Farm machinery industry. Contacts have been established in various locations throughout the nation and a large following of sellers, and more importantly buyers, has been established through our commitment to honest treatment of buyers and sellers.

This recognition has been gained through our advertising programs, pre sale setup, auction, and settlement. But above all, our ability to consistently match buyer against buyer to achieve the highest possible dollar for your surplus inventory.

Executive Summary and Technical Proposal Continued

1. The City of Gainesville contact person would coordinate with Weeks Auction Company's point of contact (Bill Catsulis) to determine what will be sold at Auction and which sale would be most beneficial and convenient for The City. As stated before, Weeks Auction Conducts a monthly Auction on the second Friday of every month, rain or shine.

2. City equipment would be placed in Weeks Auction Advertising.

Buyers from all parts of The Southeast United States attend an auction that is properly advertised. Direct mail brochures are the best way to reach potential buyers in this area. These brochures can be full color with pictures of equipment to be sold. (Samples Enclosed) A detailed list and pictures describing the items to be sold will be included in this brochure. Brochures will be mailed first class to prospective regional customers on Weeks Auction Companies in house mail list. This list consists of (approx. 35,000) buyers that have attended previous auctions and requested to be on our mailing list

In addition to newspaper ads in the Gainesville Sun, Ocala Star Banner, Weeks Auction typically also advertises in the Florida Times Union and Miami Herald. Also display ads will be placed in The Florida Heavy Equipment Trader and other publications if a special need arises for specialized equipment that are related to industries involved. Distribution of these publications will be regional and local. Weeks Auction will also list the Auction on our web-site www.weeksauction.com.

3. Transportation: Upon receipt of proposed auction list, Weeks Auction will coordinate the pick-up and transportation of items to our location. In the event items are not economically available for transportation, (Landfill Compactors, Dumpsters, Salvage or damaged machines, scrap pile), we can sell these items "off-site" by pictures, with the buyer taking possession at the site of said equipment at the location. Weeks Auction owns a 45' Box Van that we will drop off for loading and storage. When the van is loaded we will send a truck back to pick it up. Confiscated Items: In the past Weeks Auction has sent a representative to Gainesville prior to the sale to coordinate with the City representative to identify lot and tag in these items. The City is given a listing of these items. The items are placed in Weeks Auctions safe until the day prior to sale. On inspection day these items are placed on a table and taped down for inspection in our lobby and watched by a Weeks Auction employee. On sale day these items are sold and boxed back up and brought to the office to be given to the correct buyer upon payment.

4. Arrival at Auction Site: Equipment is tagged in on our consignment sheets (enclosed) for auction. Information will include description, serial number, mileage, Agency "control" or "property" number and any other pertinent information and put into sale line. Information is logged into computer from consignment sheet. This happens daily as equipment arrives. Vehicles will be test started to determine if they will run or have any problems that need to be addressed. (battery, oil, transmission). Prior to Auction vehicles and equipment will be washed and cleaned out. The City can write problem on windshield if known. Vehicle will then be moved to sale line or stored for next auction.

Executive Summary and Technical Proposal Continued

5. Inspection: Weeks Auction is open for business (equipment is also available for inspection at this time as well) at our location in Ocala, Monday thru Friday 8:00 a.m. to 5:00 p.m. and 8:00 a.m. to 12:00 p.m. on the Saturday after our monthly sale to accept consignments or load out purchases. Weeks Auction is also open all night before Auction Day for our out of town customers to view equipment and to allow them to drop off equipment for sale. Our facility is guarded by a bonded security guard at this time.

6. Auction Day: Auction personnel will be on site at 7:00 a.m. to register buyers and make last minute adjustments to the sale lineup if needed

7. Sale Staff: At all Weeks Auction monthly Auctions, Weeks Auction will have on staff at minimum: Company owners Grady and Tim Weeks, Auction manager Bill Catsulis, a minimum of ; 6 Licensed Fl Auctioneers, 6 Auction clerks, 5 cashiers/registration persons, 2 title clerks, 4 loader and equipment operator experienced in starting and loading vehicles and heavy equipment and 3 Gate check out personnel

Security: Weeks Auction hires on sale day a Marion County Uniformed Deputy with Patrol car for security, traffic control and escort for night deposit.

8. Sale Time: Promptly at 9:00 a.m. the auctioneer will make the pre-sale announcements and start the auction. The Ringmen will take bids from the buyers and encourage timid buyers to participate in the auction. Ringmen that have a good attitude and appearance will enhance the sale. Clerks will record on a clerking sheet the selling price, description, buyers number, one copy is given to buyer to check for discrepancies and one copy goes to the office for input into the computer. The auction will continue at a fast pace until each item is sold. There will be no breaks at all. The buyer will pay for his purchases in the office at one of four cashiers (we are capable of checking out six if the need arises) by cash, cashiers check, or personal or company check accompanied by a bank letter of guarantee. Weeks Auction will be responsible for all bad checks. If an item is not paid for Weeks Auction will store and resell the item at the next monthly auction. Following the auction after everyone has settled their accounts the Agency will be provided with a complete accounting of their consignments in the auction. This usually happens within 30minutes.

9. Post Sale Accounting: Weeks Auction Company will settle the auction and will pay and supply the specific Agency with any required reports, (typically this is in Excel format by, but not limited to; Lot number, Agency number, Description, serial number, sale price, deductions for trucking or repairs, and commissions) within 10 working days or as required. Weeks Auction will deduct our commissions, transportation fees, and any approved repairs from gross sales. This report is then emailed to City contact for review. Upon review and reports concur the check is mailed.

10. Reports: Weeks Auction keeps records of all of our auctions for at least 5 years electronically and 10 years on paper. This includes a copy of every invoice, any title provided, and all consigner and buyer information. Weeks Auction can build a report to meet the needs of any agency using our service.

Note: Titles for vehicles will be handled by our full time title clerk who would coordinate with the City contact to resolve any problems that arise.
