The following are answers/clarifications to questions received at the mandatory pre-bid conference:

3. Question: Section 4.05 of the specifications states that the owner will not be responsible for GRU in terms of contract time delay yet GRU's work schedule shows work to be performed for longer than the contract duration. Is it expected that GRU will push the contract into liquidated damages?

Answer: GRU Electric has agreed to modify their utility work schedule. The updated utility work schedule will be sent out in the next addendum. Please see an email, below, from GRU Electric.

GRU will inspect and accept the lighting conduit and handholes that the roadway contractor will be installing by the 240th day –

Please have the Contractor contact GRU Electric Inspections (Eugene Green) at 352 339 0340 at least **two business days in advance** of particular sections of conduit (before back-filled!) for it to be inspected.
