Re: PB-17-28LUC-PB-17-30 ZON

To Whom It may Concern:

This is a response to the petition to amend the future land use map of Gainesville comprehensive plan and petition to rezone property.

We are opposing a change in the zoning and land use category is proposed within 400 feet of our property.

We feel that the change to rezone the property conflict with the comprehensive plan with the low density and agriculture use.

We hope that the future land use would be opposed the petition to change the rezoning property in accordance with the petition.

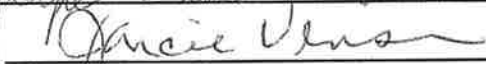

We look forward in hearing from you and seeing you at the public meeting.

Sincerely,

Joyce Ellis
