Review of the GRU Cost Allocation Study

Explanation: The Cost of Service Studies for the electric, gas, water and wastewater systems are performed annually by GRU staff, as is typical of many utilities. It is prudent to have independent analysis periodically to ensure the validity of the studies' methodologies and results. It has been more than 10 years since an independent cost of service has been conducted for GRU, thus, management felt it was appropriate to engage a consultant to perform independent studies at this time. On October 20, 2012, Baker Tilly gave a presentation on the methodology used in performing the studies. In this November meeting, they will present the study results.

RECOMMENDATION

The Regional Utilities Commission (RUC) receive a presentation from Baker Tilly Virchow Krause, LLP, to discuss the Cost of Service Studies performed on behalf of GRU.
