Sub: DEO Incentives - USR Systems 16-00140 – One year extension option

Dear Nick,

We understand you are in the process of reviewing USR Systems' 2016 incentive claim with the State of Florida. You would have noticed that USR Systems did not make the requirements as initially thought for the year 2016. So we would like to push the requirements to 2017.

There have been delays caused to our plans from highly unexpected quarters. However we are committed to growing our business and presence in Gainesville, FL. We believe things are starting to fall in place and request you to kindly consider our case for 1 year extension.

Yours Sincerely

A handwritten signature in blue ink, appearing to read 'Rajiv Akhaury', is written over a faint circular stamp.

Rajiv Akhaury
Vice President
USR Systems
