Question applies to Citizens Advisory Committee For Community Development

Why are you interested in serving on the Citizens' Advisory Board for Community Development?

The ongoing pandemic made me think deeply about others, and the communities we live in, and how valuable the people around us are. Also, during these tough times, I noticed, how when a community is healthy, it can pull together to get through those tough times and take care of its members. In order for people to feel valued, cared for and have a sense of belonging, there have to be several initiatives for people to take part in and benefit from in different ways. The result can be a vibrant and active community. In March, when the pandemic hit us and most of the country went into a lockdown, I and our team at Krishna House wondered what we could do so as to help. My first thought was to do what we do best i.e. cook and share vegetarian food. Soon, we started Krishna Lunch for Healthcare Heroes program which helped boost the morale of our heroes in hard times. Soon after that we launched Krishna CARES where we reached out to the elderly, the vulnerable and those struggling financially or in other ways, and if they would like a meal. It wasn't necessarily that they could not afford a meal, but it was the support and camaraderie that they felt which was very strengthening not only for them but also for us. I saw first hand what active community members can accomplish and how much of a far reaching impact an organized, heartfelt, personal, and well intentioned program can have. My experiences have made me want to serve more so for cultivating community members in a positive manner.

Question applies to Citizens Advisory Committee For Community Development

Why are you interested in serving on the Citizens' Advisory Board for Community Development?

Over the summer, I was employed to pursue a personal project studying the local business community's opinions towards the direction of public development, and I felt like I learnt a lot of practicable knowledge. I want to put that knowledge to use and smutaneously gain more by serving on the CACCD. More than that, I feel like the UF studentbody should have some representative on such boards, and as a student looking to actually move to Gainesville, I feel an especial obligation to do participate.

Question applies to SHIP - Affordable Housing Advisory Committee

Why are you interested in serving on the SHIP - Affordable Housing Advisory Committee?

Recently, I had the opportunity to speak with Dejeon Cain, the Chair of the Alachua County AHAC, and he really instilled in me the importance of the work such Committees do, especially in a county like ours that regularly struggles with poverty and underdevelopment. He also spoke highly of the Gainesville AHAC. Since my interests lie mostly in Gainesville instead of the rest of the county at the moment, I would love to help our city grow with my time and energy.
