Comments: I would prefer a one stop location in downtown, as I think it would be both better utilized and would actually better address the current homeless-related problems that exist in downtown. However, it is clear that there is not majority support on the commission for a downtown site.

While I do believe the Waldo Road site is actually a better choice from a homeless services perspective, Commissioner Henry has made a compelling point that we should provide a period in which the collaborative can demonstrate its effectiveness. After a period of success at the N. Main Terrace site, the Waldo Road site may be more palatable to the public.
