

040876

"Sprawl Costs Us All: How Your Taxes Fuel Suburban Sprawl," which outlines the importance of fully funding extensions to avoid subsidy of utility infrastructure by existing customers. In Alachua County speculative extensions of water and wastewater infrastructure do not occur if the proposed use is not permitted by the underlying land use and zoning.

RECOMMENDATION

The City Commission: 1) receive a presentation on the GRU water and wastewater extension policy; and 2) make findings that the GRU extension policy is appropriate; and, 3) determine that the primary influence on development patterns within the GRU water and wastewater service area are the future land use designations adopted by the current Alachua County and City of Gainesville Comprehensive Plans; and, 4) remove this item from the Referral List
