

Suggested new annexation proposal boundary (Orange)

The current annexation proposal (orange plus blue) splits the Woodbine Community Association and the Florence C & D Landfill. We have only begun to survey our neighbors views on annexation. So far all (all of the lots with hatching) are opposed until more questions are answered and/or a special area plan is created. The smaller orange area avoids all these rural properties and the properties to the south which are a buffer for the Prairie. The orange area is also entirely in Precinct 30. Having only one precinct might make the election less expensive.

**includes two likely future owners, consensus of all Woodbine members contacted and 2 cases where I am relying on reports by neighbors
