Affordable Housing Issues (B)

The Planning and Development Services Director Steve lead a review and initiated continued discussion with the suggestion that when the affordable housing issue goes to the full City Commission the four housing items be consolidated into one umbrella item addressing the issues of each item. The four housing items to be consolidated are identified as 130596-Affordable Housing Issues, 140070-Commissioner Yvonne Hinson-Rawls Proposal for Affordable Housing, 130506-Strategic Initiative 6.2 and 130958-Small Affordable Apartments.

After discussion, the Community Development Committee recommended that staff create a report identifying concisely what staff has worked on the past few months and bring the report back to the Committee. If the staff report is approved, the report will be forwarded to the City Commission with a proposal that all four issues listed below have been addressed and culminated into a single document to allow further expounding by Commissioners' benchmarking and attorneys' legal elements for a single document expressing localized Gainesville's worthwhile thinking on affordable housing:

- 1. Is affordable housing dispersed throughout the City?*
- 2. Would inclusionary zoning be an effective tool to be used in Gainesville relative to dispersed affordable housing?*
- 3. What are the impediments to affordable housing?*
- 4. What are the best tools to address the impediments to affordable housing?*

The Community Development Committee recognized Ben Bressack to discuss container housing. Mr. Bressack shared that the price that was previously discussed for a 100 units was a lot of money but it was for a small compact house in a small space. If bedrooms space is added it is a lot cheaper to build so basically, we could build an affordable single family house. The Committee members expressed that they would like to see a business model if possible.

RECOMMENDATION

The Community Development Committee discuss Affordable Housing issues and direct staff as appropriate.
