**FLORIDA RENEWABLE RESOURCE CONSERVATION AND
DEVELOPMENT COUNCIL**

Part of a state-wide organization of Councils under the auspices of the USDA

FAX TO: MAYOR P. HANRAHAN AND CURT LANNON, CLERK OF THE CITY
OF GAINESVILLE, FX # 334-2036

FROM: FL RENEWABLE RC&D COUNCIL COORDINATOR, TOM V. CUNILIO
FX# 376-5935

SUBJECT: AGENDA REVIEW FOR NEXT REGULAR CITY COMMISSION
MEETING - REQUEST FOR TIME TO ADDRESS COMMISSION

Mayor Hanrahan - The normally allotted 5 minutes during citizen comments will not be enough for what I would like to bring before the Commission. In 15 minutes I wish to describe:

1. The new RC&D Council' work to date especially as regards the Resource Inventory we are planning to include in both our One and Five Year Plans and mention the names of at least two consultants we recommend for the Peer Review Panel you will be discussing on May 12th.
2. The main conclusions of the Integrated Resource Planning process begun in 2003 by GRU.
3. Indicate the very serious situation both nationally and locally of increasing NG and electricity prices - a situation that requires that local governments consider developing a comprehensive ENERGY PLAN and partially fund with the City of Ocala the above-mentioned Resource Inventory of all renewable energy resources including solar capabilities.
4. That the Council be allowed to return in two months with a presentation of its finalized list of projects for its One and Five Year Plans.

Sincerely,
Tom V. Cunilio, Coordinator
FL Renewable RC&D Council

Cc: Chairman Don Post
