Interim Administrative Services Director Betty Baker introduced this agenda item. Commissioner Chase made the original referral to consider changing the start time of City Commission meetings to 9:00AM.

Mayor Braddy pointed out that a 9:00AM start time could be problematic for citizens who are employed, as well as for City Commissioners who are employed elsewhere. The General Manager for Utilities Ed Bielarski added that managers attending a City Commission meeting with an early start time would lose an entire day away from their staff.

The committee members discussed how to manage City Commission meetings to be efficient. Referrals can be made to committees for further review and the presiding officer could continue an item in order to schedule a special meeting for its discussion. No recommendation to change the meeting start time was made, but the members were open to trying alternatives once a quarter.

Mayor Braddy made a Motion to refer this item to the City Commission on consent to remove this item from the Legislative and Organizational Policy Committee referral list.

RECOMMENDATION *Member of the Legislative and Organizational Policy Committee discuss Rule I of the Rules of the City Commission (Resolution 150370); 1) take any action deemed appropriate; and 2) remove from the committee's referral list.*

Mayor Braddy made a Motion to refer this item to the City Commission on consent to remove this item from the Legislative and Organizational Policy Committee referral list.

NEXT MEETING DATE

The next meeting of the Legislative and Organizational Policy Committee is scheduled for 5:00PM on Tuesday, March 8, 2016.

ADJOURNMENT

Mayor Braddy adjourned the Legislative and Organizational Policy Committee at 6:10PM.
