Related to Board/Committee:

Over the summer interned with the Assistant City Manager in Portage Michigan. From the weekly fire department, public works, and community volunteer meetings I attended during my internship, I have become well acquainted with the processes and procedures of many kinds of board meetings. Since I have moved to Gainesville, to attend the University of Florida, I have become very interested in the many cultural events and community programs the city as to offer. The Hippodrome has become my new favorite place to see some of the diverse programs that local groups and organizations put together. I hope to become more involved and knowledgeable about the wonderful abundance of cultural affairs the city and county have to offer that, I feel, truly distinguish Gainesville from many other cities.

Educational Background:

I have a high school diploma from Manatee High School. I am currently a sophomore at the University of Florida seeking a telecommunications degree and history minor.

Professional Organizations:

National Broadcasting Society- A pre-professional society for Telecommunication majors. We learn about jobs, volunteer opportunities, and each others experiences and also give our service to the community.

S.O.N.G. - The Singing Organization for a Nation of Gators is an a cappella singing group that performs for local assisted living and nursing homes.

Pre-legal Honors Society- a pre-professional society for students planning to attend law school. This group allows its members to learn about the application process for law school, job possibilities and experiences, while also facilitating networking, and community service projects.

Golden Key Honors Society- I was allowed to be a part of this organization because of my high academic achievement. As a member, I have been able to learn about the Gainesville community and had many opportunities to give back in the form of service. The clubs signature project is Rock for Hunger to raise money for local food banks.

Related to Board/Committee:

In regard to the Public Recreation and Parks board, I have been a member of the Gainesville Soccer Alliance (GSA) for many years. GSA recently raised a lot of money in order to make new fields in Jonesville. I have also played soccer for three years at Eastside High School. As a member of these sports teams, I realize the importance of parks and fields, and agree that the city needs more of both.

In regard to the Energy Advisory Committee, I am a member of the Greener Side Project at Eastside High School, whose goal is to take one of the buildings on the Eastside campus and make it more energy efficient, so that it can be certified as a "Green Building."

I just learned about the city's student advisory program through an article in the Gainesville Sun last week. Thus, I have not had a chance to attend any committee meetings yet. I would be happy to do so in the future though.

Educational Background:

I am a junior at Eastside High School and I am in the IB (International Baccalaureate) Program.

Related to Board/Committee:

I currently am working for the Environmental Protection Agency (EPA) Region 7 Headquarters in Kansas City, Kansas (where I live when I am not going to UF). This work experience means that I know how the EPA advises municipalities to handle water management, conservation and sustainability issues; and can evaluate them in a policymaking context.

Also my honors class in the spring, ENV4932, focused solely on water management, so I have a lot of knowledge of Florida water management issues.

Hello,

I have recently submitted my resume for Student Seats for Advisory Board/Committees to be review. I would like to include my professional resume to be included in the review process, as well as this letter. Attached is a copy of my latest resume which was submitted for the job I currently hold.

I hope that my qualifications have met with your approval thus far. I apologize for not having attended any prior meetings in the desired committees as I was only recently informed of the openings. My goals in joining an advisory committee are to further myself by accumulating committee experience and to serve my community by accurately representing the student body in civil affairs.

Like most local students, I chose to attend SFC after completing high school. Many of my colleagues and I have been in the Alachua County Education System since a very early age. It is because of this that I feel I can adequately represent the opinions of the long term resident students as opposed to the short term students.

While I have not served on any professional boards within my recently started career, I have served on a committee within several private interests. I have served on several committees within the Boy Scouts of America and Clubs at SFC. I am currently involved with the student senate, fencing team, and several clubs at SFC. Although these may not be effective in my long term professional career, I am thankful to have gained the experience and resources to further my educational career.

If you should have any questions, please feel free to call me at any time. 352 283 5314
Likewise, any of my submitted references would be happy to discuss my qualifications at any time.

Thank You,
Bryant Sooy

Related to Board/Committee:

I have not had any formal training in either boards but I have practiced public speaking about global topics in a formal setting through a former history class. I would like to gain some formal experience, though, while learning about Gainesville and the community.

Educational Background:

I have studied human rights on a global scale through the study of the Genocides in Rwanda, Darfur, and Chechnya. I have also studied human trafficking and the United Nation's efforts to impede trafficker's progress and have also recently taken an interest in the Red Light District in Calcutta. Ergo, after learning about the interests of the Global Community I would like to narrow my focus to a more local level and learn what topics are addressed at the local level.
