Skateboard Park(s) - Start. by JUDIE DAVIDSON

I am supportive of building skateboard parks at ^{the} Westside Park and Depot areas.

My 15 year old son skateboards at every opportunity, and finding legal places to skateboard is a continuous barrier.

From a parent's point of view, a skateboarding park would provide a child/teenager the following:

- the opportunity to meet other people and establish comradeships with other skaters
- the opportunity to exercise and work off stress
- the opportunity to improve one's skills without the competitiveness of for example, a team sport
