THE REFORM INSTITUTE

A SHORT AGENDA OF THIS WASHINGTON THINK TANK

Our Mission

The Reform Institute is a nonpartisan, not-for-profit educational organization working to strengthen the foundations of our democracy and build a resilient society. The Institute formulates and advocates valuable, solutions-based reform in vital areas of public policy.

Our Values

The Reform Institute believes that surmounting the most intractable issues facing the nation will require fundamental reform that results in a government that inspires and instills public confidence through transparency and accountability, leadership that serves as a catalyst for innovation and collaboration, and policies that promote competition in elections and the markets.

Our Vision

The Reform Institute's vision is to build a more resilient nation that is able to overcome the challenges we collectively face and emerge as a stronger country. A resilient nation requires: a fully transparent and accountable government, a citizenry that is actively engaged in the political process and has genuine access to the wealth of opportunities that the free market has to offer, and institutions and infrastructure capable of facilitating and taking full advantage of the ingenuity and determination of the American people by promoting private sector innovation.
