Add to "Summary Description of the Plan"  
(Page 24, between second and third paragraph)

"The CRA should take full advantage of the powers given it by Statute 163 to address the issues discussed in the plan. The CRA could address gentrification/affordable housing issues by developing and demonstrating new or improved means of providing housing for families and persons of low income. The CRA could also address the reduction or prevention of crime by developing and demonstrating community policing innovations. These new techniques can be funded by TIF during the development and demonstration stages, but after a reasonable demonstration period would be evaluated and either funded through another mechanism or terminated."

Add to end of the first full paragraph in the left column "A very clear lesson ..." Page 25
