Light Rate Class:

- 1) Public Street Light Rate Class: This class of lighting rates is for use with lights approved by and the monthly rental paid for by a governmental body, mainly the City of Gainesville (Traffic Engineering) or Alachua County Board of Commissioners (Public Works). The rental rate includes the cost of installation and maintenance of the light. The rates do not include the installation of or the rental of a pole to support the light. Pole rates are separate and in addition to the rental of the light. When lights are rented under this rate class and a pole is required, the pole shall also be rented under this same class.
- 2) Public Agency Light Rate Class: This class of lighting rates is for use with lights approved by, and the monthly rental paid for by, a governmental body, mainly the City of Gainesville (Traffic Engineering) or Alachua County Board of Commissioners (Public Works). The monthly rate does not include the cost of installation, but only the energy charge, fuel adjustment and normal maintenance. The installation cost for poles and lights is paid for upfront prior to the light or pole being installed by the governmental body responsible for the monthly rental charges. ~~The ownership of the lights and poles remains with GRU.~~ The rates for the lights do not include the installation of a pole. If a pole is necessary to support a light installed under this rate class, the poles must also be purchased and installed with all cost paid prior to installation of the light and pole.
- 3) Rental Light Rate Class: This class of lighting rates is for use with lights approved for use by a commercial, industrial or residential customer and the monthly rental paid for by the customer. The monthly rental rate includes the cost of installation and maintenance of the lights and poles. The rates for lights do not include the cost or installation of a pole to support the light. Pole rates are separate and in addition to rental of the light. When lights are rented under this rate class and a pole is required, the pole shall also be rented under this same class.
- 4) Rental Agency Light Rate Class: This class of lighting rates is for use with lights approved for use by a commercial, industrial or residential customer and the monthly rental paid for by the customer. The rate does not include the cost of installation, but only the energy charge, fuel adjustment and normal maintenance. The installation cost for the poles and lights is paid for upfront prior to installation by the customer responsible for the monthly rental charges. ~~The ownership of the lights and poles remains with GRU.~~ The rates for the lights do not include the installation of a pole within the rate. If a pole is necessary to support a light installed under this class of lighting rates the poles must also be purchased and installed with all cost paid upfront along with the light.
