Meeting

Staff recommends the following changes to the proposed Evaluation Process and Factor Weights:

1. Issue addendum to provide each respondent the option of submitting more than one proposal for evaluation;
 - a. With or without the use of MSW and/or
 - b. As either PPA or EPC
2. Revise the Environmental Emissions Factor to reflect;
 - a. Total emission per MWh delivered to Gainesville
 - b. Include fuel transportation emissions
3. Use the Factor "Variable Production Costs" to be scored on heat rate with a factor weight of 5.0.
4. Remove tax revenues from "Local Economic Development" and reduce the factor weight from 5.0 to 3.0.
5. Reduce the factor weight for "Commitment to Sustainable Forest Management" from 8.0 to 5.0.
