

# 991185 RTS - Ground Trans. Cycle

PH Architect was looking to negotiate a percentage fee rather than a flat fee and my, I guess perception on that for what it's worth and maybe C/Barrow could speak to this, at a certain point we need to go back out for new proposals, I think, I mean I don't know what point that is, and I don't know if that's something that staff has considered, I will say that I think the vision that was developed by Dover -Kohle as a façade had a lot of broad based support for it and I know that there's been awful lot of work done on the interior.

Teresa Scott:  
Wayne Bowers

MOTION: Refer this item to the Public Works Committee to discuss with the RTS Advisory Board at an upcoming meeting.

EJ Second

BD: It's been moved and seconded that we refer the item of the new RTS Building.
