Interests & Experiences

Why are you interested in serving on a board or commission?

I have lived in Gainesville since 2011 and am an avid cyclist. I ride bicycles for recreation and to commute. Having worked in a local bike shop and the city's local cycling non-profit, I have a lot of experience speaking with other cyclists about issues in infrastructure, motorist attitudes, and other factors that affect our safety on the road. I am part of the Gainesville Cycling Club and have received awards from national organizations for the work that I've done in the community, including the opportunities to take a class on leadership and receive bicycle mechanic certification. As a young person of color I feel that I can add a valuable, fresh perspective to the board. I am very passionate about bicycle advocacy, and making this town a better place to walk and ride.

Interests & Experiences

Why are you interested in serving on a board or commission?

I have always been interested in the structure of local government and how it may be improved. I believe that as a long term (40 years) resident of Gainesville I will bring a balanced viewpoint to the issues under consideration to the boards that I am applying to serve on. In addition, my background as a 32 year employee of the University of Florida has exposed me to the dynamics of the town/gown relationship and the interdependence that exists between the city and university. I am a 30+ year homeowner/resident of North East Gainesville and I am well aware of the many issues confronting this segment of our community. Finally, as a person with a lifelong physical disability (I have used a power wheelchair since the age of 19) I know that I will bring an otherwise overlooked viewpoint to most issues brought to any board in which I am a member. I know that I will be able to offer a unique perspective on local governance and its impact on a marginalized segment of our local population.
