Training/Experience related to Board(s)/Committee(s) to which appointment is being sought

I am a community planner, management consultant, and sustainability professional with ten years of experience serving both local government and private sector clients through my position with an international architecture and engineering firm. I am a native of North Central Florida and 2001 graduate of the University of Florida. I moved back to Gainesville in February 2014 after living in a variety of other places (including Austin, TX, and Tampa, FL) because of my love for this city and the unique quality of life that it offers. I would like to become more involved in our community and contribute to its success, and I see participation in this City Advisory Board as one way to accomplish that goal. As an avid cyclist (road, mountain, and commuter), I have a special interest in the Bicycle Pedestrian Advisory Board. I utilize our City's bicycle and pedestrian infrastructure on a daily basis and have a great appreciation for the good infrastructure we already have in place. However, there is always room for improvement and I know I can be a positive and effective contributor to this Board. I firmly believe that making our City accessible, safe, and attractive for those using all modes of transportation is imperative to the continued economic, social, and environmental success of this community.

Training/Experience related to Board(s)/Committee(s) to which appointment is being sought

I have worked for the Florida Park Service Division of Recreation and Parks as a biologist since 2001. Since 2006 I have worked as a District biologist in Gainesville serving 42 state parks in the north central Florida region. Integral to my position has been a distinct management balance between protecting/restoring natural and cultural resource landscapes while providing recreational and educational opportunities to public visitors. I have been directly involved with numerous recreation and education projects during the past 15 years including biking, hiking, and equestrian trails management. For the past 8 years I have actively utilized the vast majority of designated pedestrian/ bicycle trail systems within Gainesville, including a nearly daily bike ride from the north west side of town to my office headquarters on the south rim of Paynes Prairie.

Educational Background

Bachelor of Science Biology and Master of Science Biology from University of Central Florida
