### Applicant/Agency Information

#### Target Population\*

Select all that apply to indicate which population groups are directly impacted by your work.

Low-income individuals/families

#### Local Impact\*

What is your organization's impact on its constituents and the City of Gainesville community in recent years? Please quantify your responses where possible (i.e. number of people served).

In the past 4 years, Alachua Habitat for Humanity has dramatically increased its production of the number of affordable homes it has built. Since 2018, our Affiliate has built 28 homes in Alachua County, 13 of which have been within the city limits of Gainesville. For the 15 adults who are now paying a mortgage they can afford for a dwelling that is healthy and safe, it has meant a lot of hard work contributing the 400 sweat equity hours needed to complete our program, which in turn has fostered strength and self-reliance. For the 25 children who now live in stable environments, it has meant no longer having to leave friends when their parents have to move due to increased rental costs they can no longer afford. It has meant a more stable environment for their education and more success in learning. A recent study published in the journal of the Federal Reserve Bank of New York found that children of homeowners are 17% more likely to pursue a post-secondary education than children of renters. Our Critical Home Repair program, has served 26 additional households in the same time period. With 1000 people a day turning 65 in this country, many owning their own homes but unable to afford the critical home repairs such as roof replacements, electrical system upgrades or major plumbing work.

### Pandemic changes to your organization

### Pandemic-related changes to priorities and goals\*

Briefly explain how the COVID pandemic has changed your organization's priorities and goals.

The COVID pandemic has put a severe stress on the affordable housing market. Rental prices increased by about 12% year over year while the Alachua County Average Media Income dropped by 5.05% for the same period. inflation currently stands at 7.5% overall. There are far more households in need of an affordable place to call home than before the pandemic began. Alachua Habitat for Humanity is embracing this challenge.

Since our inception, we have helped 163 families become homeowners. Our goal is to increase our fundraising and housing production so that by the end of 2027, we will have built 500 homes.

#### Pandemic-related changes to your organization's operations\*

Please describe how your operations have changed during the pandemic from a staffing and service delivery standpoint.

As mentioned above, we aim to triple our service output by 2027. To do this, we are doing a number of operational changes:

- We are creating an electronic portal for homeowner preliminary applications
- We are reaching out to churches, hospitals, and educational institutions and actively enlisting their support to identify parishioners and employees who might benefit from our homeownership program.
  - We have brought on staff a fundraising professional who has raised over \$60 million over his career
  - We are instituting an Intern program to add to and bolster our staffing and outreach
- We are appealing to local corporations and businesses for their support with financial, volunteer and inkind sponsorships
- We are working collaboratively with other organizations to explore creation of projects that incorporate affordable rental housing in addition to our traditional homeownership model

### **Impact**

#### Description of Need as Specifically Related to Coronavirus\*

Please provide a description of how your organization continues to be impacted by the coronavirus pandemic, operationally and/or programmatically.

There are two areas of need that we address in the request:

- 1) Due to the shortages of building materials, the difficulty in finding qualified tradespeople, and the inflation in the price of building materials, we are asking support in the form of additional funding required to cover the cost increases generated by these conditions.
- 2) Due to the increased demand for affordable housing, we are asking for support in increasing the numbers of households we assist with our program.

#### Population Impact\*

Indicate if your services are directed at populations that have been disproportionally impacted by the COVID pandemic. (Identify at least one category: race, gender, ethnicity, geography, income)

90% to 95% of households receiving Habitat services are Black.

#### Disparity\*

What disparity does this population experience that this program addresses? Examples: home ownership, income, health, educational attainment, etc.

Homeownership. According to a study by the the Brookings Institute, Foreclosure/Eviction rates during the Pandemic for Black households (9%) were double that of White households (5%). Mortgage/delinquency rates were nearly double also (16% versus 9%)

#### **Supplemental Disparity Information**

For organizations with gross revenue of more than \$1 million, show data to demonstrate existing disparities and impact of COVID on the population identified, including local data if possible. Examples of data can be related to health, socioeconomic status, housing, or factors specific to the program.

The COVID pandemic has put a severe stress on the affordable housing market. Rental prices increased by about 12% year over year while the Alachua County Average Media Income dropped by 5.05% for the same period. Inflation currently stands at 7.5% overall. There are far more households in need of an affordable place to call home than before the pandemic began.

#### Sustainability\*

What are the long-term strategies for funding this project/program at the end of the grant period?

Through participation sales of newly generated mortgages to financial institutions in need of CRA credits, we are building a process with donors of that will allow their gifts to extend beyond just one house, but reverberate manifold over time. This coordinated strategy gives promise to the long-term expansion of our affordable housing mission.

Other instruments we are cultivating with financial institutions are what we call 'third party lending' whereby Habitat works with income qualified households to improve their understanding of what it means to be financially responsible, and thereby improve their creditworthiness. With their credit repaired and a better understanding of fiscal responsibility as well as Habitat's assistance in attracting sizeable first-time homebuyers assistance packages, these families can now qualify for a traditional or a reduced interest bank loan. Habitat then comes away from the closing with funds to build another home.

### Applicant/Agency Information

#### Target Population\*

Select all that apply to indicate which population groups are directly impacted by your work.

Low-income individuals/families

#### Local Impact\*

What is your organization's impact on its constituents and the City of Gainesville community in recent years? Please quantify your responses where possible (i.e. number of people served).

In the past 4 years, Alachua Habitat for Humanity has dramatically increased its production of the number of affordable homes it has built. Since 2018, our Affiliate has built 28 homes in Alachua County, 13 of which have been within the city limits of Gainesville. For the 15 adults who are now paying a mortgage they can afford for a dwelling that is healthy and safe, it has meant a lot of hard work contributing the 400 sweat equity hours needed to complete our program, which in turn has fostered strength and self-reliance. For the 25 children who now live in stable environments, it has meant no longer having to leave friends when their parents have to move due to increased rental costs they can no longer afford. It has meant a more stable environment for their education and more success in learning. A recent study published in the journal of the Federal Reserve Bank of New York found that children of homeowners are 17% more likely to pursue a post-secondary education than children of renters. Our Critical Home Repair program, has served 26 additional households in the same time period. With 1000 people a day turning 65 in this country, many owning their own homes but unable to afford the critical home repairs such as roof replacements, electrical system upgrades or major plumbing work.

### Pandemic changes to your organization

### Pandemic-related changes to priorities and goals\*

Briefly explain how the COVID pandemic has changed your organization's priorities and goals.

The COVID pandemic has put a severe stress on the affordable housing market. Rental prices increased by about 12% year over year while the Alachua County Average Media Income dropped by 5.05% for the same period. inflation currently stands at 7.5% overall. There are far more households in need of an affordable place to call home than before the pandemic began. Alachua Habitat for Humanity is embracing this challenge.

Since our inception, we have helped 163 families become homeowners. Our goal is to increase our fundraising and housing production so that by the end of 2027, we will have built 500 homes.

#### Pandemic-related changes to your organization's operations\*

Please describe how your operations have changed during the pandemic from a staffing and service delivery standpoint.

As mentioned above, we aim to triple our service output by 2027. To do this, we are doing a number of operational changes:

- We are creating an electronic portal for homeowner preliminary applications
- We are reaching out to churches, hospitals, and educational institutions and actively enlisting their support to identify parishioners and employees who might benefit from our homeownership program.
  - We have brought on staff a fundraising professional who has raised over \$60 million over his career
  - We are instituting an Intern program to add to and bolster our staffing and outreach
- We are appealing to local corporations and businesses for their support with financial, volunteer and inkind sponsorships
- We are working collaboratively with other organizations to explore creation of projects that incorporate affordable rental housing in addition to our traditional homeownership model

### **Impact**

#### Description of Need as Specifically Related to Coronavirus\*

Please provide a description of how your organization continues to be impacted by the coronavirus pandemic, operationally and/or programmatically.

There are two areas of need that we address in the request:

- 1) Due to the shortages of building materials, the difficulty in finding qualified tradespeople, and the inflation in the price of building materials, we are asking support in the form of additional funding required to cover the cost increases generated by these conditions.
- 2) Due to the increased demand for affordable housing, we are asking for support in increasing the numbers of households we assist with our program.

#### Population Impact\*

Indicate if your services are directed at populations that have been disproportionally impacted by the COVID pandemic. (Identify at least one category: race, gender, ethnicity, geography, income)

90% to 95% of households receiving Habitat services are Black.

#### Disparity\*

What disparity does this population experience that this program addresses? Examples: home ownership, income, health, educational attainment, etc.

Homeownership. According to a study by the the Brookings Institute, Foreclosure/Eviction rates during the Pandemic for Black households (9%) were double that of White households (5%). Mortgage/delinquency rates were nearly double also (16% versus 9%)

#### **Supplemental Disparity Information**

For organizations with gross revenue of more than \$1 million, show data to demonstrate existing disparities and impact of COVID on the population identified, including local data if possible. Examples of data can be related to health, socioeconomic status, housing, or factors specific to the program.

The COVID pandemic has put a severe stress on the affordable housing market. Rental prices increased by about 12% year over year while the Alachua County Average Media Income dropped by 5.05% for the same period. Inflation currently stands at 7.5% overall. There are far more households in need of an affordable place to call home than before the pandemic began.

#### Number of individuals served\*

Indicate the total amount of individuals who will be directly impacted by this program.

#### Sustainability\*

What are the long-term strategies for funding this project/program at the end of the grant period?

Through participation sales of newly generated mortgages to financial institutions in need of CRA credits, we are building a process with donors of that will allow their gifts to extend beyond just one house, but reverberate manifold over time. This coordinated strategy gives promise to the long-term expansion of our affordable housing mission.

Other instruments we are cultivating with financial institutions are what we call 'third party lending' whereby Habitat works with income qualified households to improve their understanding of what it means to be financially responsible, and thereby improve their creditworthiness. With their credit repaired and a better understanding of fiscal responsibility as well as Habitat's assistance in attracting sizeable first-time homebuyers assistance packages, these families can now qualify for a traditional or a reduced interest bank loan. Habitat then comes away from the closing with funds to build another home.
