

Community Health Improvement Plan: Goals and Objectives

GAINESVILLE FLORIDA- Community Health

CHIP Mission: To guide a community health board, its partners, and its stakeholders on work to improve the health of the population within the City of Gainesville, Florida.

CHIP Vision: To be a global model of a healthy community

The City of Gainesville Health Improvement Planning process officially commenced in 2020 as documented in the latest version of the strategic planning document. The broad desire was to establish a healthy and equitable community for all. As Gainesville Fire & Rescue was uniquely positioned in the health services space, they were assigned as the lead agency. To move toward realization of the vision of being a model healthy community, the planning process has produced priority goals supported by S.M.A.R.T. objectives led by various departments. This living document will be vital in transforming the health of the Gainesville community.

GOAL 1:

Identify working groups for each priority objective championed by a lead agency and committed partners.
