### **Executive Summary**

The attached report is an update of all City funds including additional information gathered from the departments.

The report is ordered by fund balance type. To summarize, there are five types of fund balances for governmental funds:

- Nonspendable This fund balance is the most constrained category and cannot be spent either
  because it is not in a spendable format and is not expected to be transformed into a spendable
  format (like inventory) or because it is the nonexpendable corpus of a trust (like the Evergreen
  Cemetery Trust).
- **Restricted** Includes amounts that can be spent only for specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions can effectively be changed or lifted only with the consent of the resource provider.
- Committed Includes amounts that can only be used for the specific purpose determined by a formal action of the City's highest level of decision making authority, i.e. an ordinance adopted by the City Commission. These commitments may be changed or lifted only by the City Commission taking the same formal action that imposed the constraint originally.
- Assigned Comprised of amounts intended to be used by the City for specific purposes that are
  neither restricted nor committed. Intent is expressed by a body (for example a budget or finance
  committee) or official to whom the City's Commission has delegated the authority to assign amounts
  to be used for specific purposes.
- Unassigned This fund balance represents amounts not contained in the other classifications.

While the City has over 90 funds currently, the detailed report that follows only shows those funds in which the fund balances (if any) are in the committed, assigned or unassigned categories. The funds in the non-spendable or restricted category as described above cannot be reappropriated for any other purpose than the original intent of that fund. ### All Funds Summary of Available Funds for Future Appropriations

This summary list is broken down by fund balance type from those funds with committed, assigned or unassigned categories. The funds in the non-spendable category or restricted category cannot be reappropriated for any other purpose than the original intent of that fund.

The first type is committed fund balance. These funds include amounts that can only be used for the specific purpose determined by a formal action of the City's highest level of decision making authority, i.e. an ordinance adopted by the City Commission. These commitments may be changed or lifted only by the City Commission taking the same formal action that imposed the constraint originally.

#### **Funds with Committed Fund Balance:**

The second type is assigned fund balance and these are comprised of amounts intended to be used by the City for specific purposes that are neither restricted nor committed.
