

A RESOLUTION DECLARING GAINESVILLE A ZERO WASTE COMMUNITY.

WHEREAS, more than an estimated XXXXXX tons of waste is generated in the city of Gainesville each year by residents and commercial organizations;

WHEREAS, though the city of Gainesville has reached an overall diversion rate of approximately XX%, more can be done, especially in “closing the loop” by purchasing products made with recycled content;

WHEREAS, the placement of materials in waste disposal facilities, such as landfills and incinerators wastes natural resources, transfers liabilities to future generations and has the potential to cause damage to human health;

WHEREAS, avoiding the creation of waste or discards in the first place is the most economically efficient and environmentally sustainable resource management strategy;

WHEREAS, a resource recovery-based economy will create and sustain more productive and meaningful jobs than a disposal-based economy;

WHEREAS, with the appropriate economic incentives, manufacturers can and will produce and businesses will sell products that are durable and repairable and that can be safely recycled back into the marketplace or nature;

WHEREAS, the City will develop and adopt a Zero Waste Strategic Plan with stakeholder and community input and establish an implementation strategy based on the recommendations in the Plan.

WHEREAS, through education, engagement of local business and non-profit leaders, leadership from citizens and local government, the Gainesville community can lead the region in moving toward Zero Waste.

WHEREAS, government can be ultimately responsible for establishing criteria needed to eliminate waste, for creating the economic and regulatory environment in which to achieve it, and for leading by example, and

WHEREAS, the guiding principles of zero waste are: managing resources instead of waste, conserving natural resources through waste prevention and recycling, turning discarded resources into jobs and new products instead of trash, promoting products and materials that are durable and recyclable, and discouraging products and materials that can only become trash after their use.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF GAINESVILLE, FLORIDA

The city of Gainesville hereby encourages the pursuit of Zero Waste as a long-term goal in order to eliminate waste and pollution in the manufacture, use, storage, and recycling of materials. This goal must be addressed through the choices Commission will make in the context of the city’s annual budget processes, by initiating action plans and measures that significantly reduce waste and pollution. These measures will include encouraging residents, businesses and agencies through incentives and legislation to judiciously use, reuse, and recycle materials, as well as to motivate businesses to manufacture and market less toxic and more durable, repairable, reusable, recycled, and recyclable products.

The city of Gainesville will also review its own policies, contracts, and standard operating procedures to incorporate zero waste provisions and actions into all aspects of its organizational culture to encourage

the use of materials and products that are durable, repairable, and reusable, have a minimum of packaging, toxic content or chemical hazard potential, are resource and energy efficient in their manufacture, use and disposal, and in their use or disposal minimize or eliminate the city's potential environmental liability.

ADOPTED this XX day of XXXX
