TREE REMOVAL PERMIT AND REPLANTING AGREEMENT

The Gainesville Land Development Code requires mitigation for each regulated tree removed. The size (diameter), species, and condition of the tree, as well as the land use and where on the property the tree is located, will determine the mitigation. Mitigation trees must be nursery-grown, 2" ± 0.5" in diameter, and Florida Nursery Grade #1. Please see "Sec. 30-8.7" Permits for Tree Removal; Mitigation" for more details. The "Gainesville Tree List" provides the species that are approved for mitigation and is available upon request.
