## Interests & Experiences

**Why are you interested in serving on a board or commission?**

As a University of Florida student, Gainesville has been my home for many years. My main modes of transportation has been by foot, bicycle, and public transportation (bus). I'm interested in serving on the advisory board because I have first hand experience in the plights of public transportation. As the City of Gainesville expands, I would like to join the effort in improving the modes of transportation that citizens choose to take.

**How many terms have you served on this board or committee previously?**

0

Members of all City of Gainesville Advisory Boards and Committees must only serve two (2) consecutive terms, except for the City Plan Board, Development Review Board and Historic Preservation Board.

## Interests & Experiences

### Why are you interested in serving on a board or commission?

---

As a 2nd time applicant, my strong interest in serving on the City Plan Board is to be a part of a sustainable model for growth and development here in Alachua County and the City of Gainesville in particular. I've been a resident of Gainesville as a student (double Gator '02, '04 Architecture), a business owner, and most importantly a community member that realizes how special Gainesville is when compared to other cities around the country. Having been a professional that has worked in Ft. Lauderdale, Miami, Atlanta, Athens, Jacksonville, and now Gainesville, I've seen firsthand the role an effective planning board can play in positive development that benefits the individual as well as the community. It's not an easy task, but my experience is that Gainesville has a core value of finding ways to do the right thing, and I would like to do my part as a member of the community. My background gives me a unique voice, having been an architect for over 15 years, and I would enjoy being a member of the board that is able to speak to a combination of the vision and forward thinking that is very much a part of my day to day world, as well as the practical nature of planning and the built environment. Sustainability is key issue for me, which has many ways of being presented, including remembering when basic principles of design and planning still beat new technologies. I'm very much a hybrid of our design industry, with an empathetic world view that values multiple sides of every discussion. I seek the win-win approach as much as possible. Our family has enjoyed our time in Gainesville, and my hope is that by joining the Board I'm able to help play a role in continuing the positive growth and preservation of what makes Gainesville a special place to live, work, and play. Thank you for your time.

## Interests & Experiences

**Why are you interested in serving on a board or commission?**

Gainesville is growing and becoming more than just a "College Town." With the expansion of Bulter Plaza, the addition of Celebration Pointe, Gainesville and Alachua County are expanding. My interest in service on a board for City Planning or D is to ensure that Gainesville Code of Ordinances are being met as well as keeping in line with Gainesville desire to solve our critical issues with intentional design. While I believe I can add value to the city by serving on either board, I also believe that I would gain much from it as well. I hope that I would gain a better understanding of how the public and private businesses interpret Gainesville's smart growth and see how putting theory to execution works at the city level.

## Interests & Experiences

**Why are you interested in serving on a board or commission?**

---

As the City Commission is well aware, I have served four years on the College Park University Heights (CPUH) Redevelopment Advisory Board, elected by the members this past year as Chair. As former President of the University Park Neighborhood Association (2017-18), I represented neighborhood interests. Recently, I fully supported the transformation of the City's revised redevelopment structure and urged the Commission to keep its focus on blight, especially in vulnerable neighborhoods such as Fifth Avenue Pleasant Street, Porter's Quarters, and the Eastside. If appointed to this new Board, I will continue to balance neighborhood interests with compatible redevelopment and equity. That said, due to my five year record of public advocacy for neighborhood interests with respect to the Comprehensive Plan and Land Development Code, I believe I could make a greater contribution, if selected, as a member of the City Plan Board. Members of the Commission all know of my expertise and genteel advocacy in this area, as well as the positive relationship I have maintained with the Interim Director of the Department of Doing, Andrew Persons. You also know that I am not a "go-along" sort of guy, but rather an independent and well-informed thinker, especially when it comes to land use and development issues. I also have many friends among developers. If selected, I will ensure that the interests of our historic neighborhoods are carefully balanced with economic development. I will also be an opponent of endless urban sprawl and an advocate for safe street designs as necessary to protect all users, to include bicyclists, pedestrians, scooters, and large vehicles. I support many recommendations of the UF's Strategic Development Plan and will work to implement it in an equitable manner that is fair to all concerned.

**How many terms have you served on this board or committee previously?**

Two Terms on CPUH Board; none on the Plan Board

Members of all City of Gainesville Advisory Boards and Committees must only serve two (2) consecutive terms, except for the City Plan Board, Development Review Board and Historic Preservation Board.

## **Robert Mounts**

1639 NW 11<sup>th</sup> Road, Gainesville, FL 32605

Telephone: 352-665-9296; Email: robert.t.mounts@gmail.com

Mr. Mounts, a retired attorney, served as the Special Assistant to the Deputy Commander, U.S. Forces Korea for International Relations and United States Secretary to the Status of Forces Agreement (SOFA) Joint Committee in the civilian grade of GS-15 (full colonel equivalent) from January 1996 until July 2014. He retired with over 45 years of government service and returned home to his native Gainesville, Florida in July 2014.

Mr. Mounts also served over 25 years on active duty in the U.S. Air Force, serving both as a career Judge Advocate and as a Special Agent, Air Force Office of Special Investigations, retiring July 1, 1994 in the grade of Lieutenant Colonel, USAF. After military retirement, he practiced law in Long Beach, California specializing in commercial dispute resolution until his government appointment.

During a break in military service in 1972-74, Mr. Mounts served as Deputy General Counsel to former Florida Governor Reuben O'D. Askew and wrote major criminal justice legislation, including the 1973 Florida State-Wide Grand Jury law, and a 1973 Executive Order establishing procedures for Judicial Nominating Commissions.

Mr. Mounts obtained his undergraduate and law degrees from the University of Florida in 1964 and 1966, respectively, and was admitted to Florida Blue Key. He is a member of various civic and professional organizations, and is the recipient of multiple professional awards. In recognition of his Federal civilian service, he was awarded the Department of the Army Decoration for Exceptional Civilian Service (highest civilian award).

Mr. Mounts is married to Eunsook Park, who works from home, and they have five grown children between them, including two sons serving in the US armed forces. Mounts currently serves as Chair of the Community Redevelopment Agency's College Park University Heights Redevelopment Advisory Board; as a member of the Alachua County Democratic Executive Committee (former State Committeeman); on the Matheson History Museum Board; as a member of the Rotary Club of Gainesville, and is the immediate past president of the University Park Neighborhood Association (UPNA). He ran unsuccessfully for the City Commission District 4 seat earlier this year and remains an active citizen.

## **City of Gainesville Plan Board Statement of Intent**

Kim Tanzer FAIA

Distinguished Professor, Association of Collegiate Schools of Architecture

Professor Emerita, University of Virginia School of Architecture

September 30, 2019

“Service is the rent we pay for living on the planet.”

Marian Wright Edelman

When I arrived in Gainesville as an architect and visiting assistant professor years ago, I quickly sought opportunities to provide community service. I volunteered for and was appointed to the City of Gainesville’s inaugural Development Review Board, and volunteered to write occasional guest editorials on urban practices for the *Gainesville Sun*, a practice I continue to this day.

As my career unfolded, when possible I focused my required teaching in the Department of Architecture on community-based work. I believed it was important that students learn about real people in real communities as part of their education, and that they experience the act of contributing to the community in which they live.

Together, and with the wisdom and guidance of community leaders, we worked with the Fifth Avenue/Pleasant Street neighborhood, neighborhoods surrounding the Depot area, and on the redevelopment of the SW 2<sup>nd</sup> Avenue corridor, known today as Innovation Square. I was commissioned by the CRA to provide the first master plan for the Fifth Avenue/Pleasant Street CRA District, and served as one of the faculty leads for the c. 2000 EPA-funded, City-endorsed Depot Area Master Plan. I twice received Florida Humanities Council grants for project in the Fifth Avenue/Pleasant Street neighborhood. In addition, at the request of various University of Florida administrators, my students and I worked on master plans for the Performing Arts Center Area, and on the sequence of courtyards within the National Historic District leading to the Women’s Gym at UF. A UF-wide charrette launched this project, which led to the refurbishment of several residential courtyards and more recently, the Plaza of the Americas.

From 1999-2009 I was among a group of UF and community leaders that launched and supported, through volunteer efforts, the Florida Community Design Center, Inc. After serving as Executive Director for several years I remained on the Board, organizing exhibits, events, and walking tours to help our community become educated about local environmental design issues, and to provide a forum for informed discussions.

When I accepted the deanship of the School of Architecture at the University of Virginia, I took my passion for community design with me. Among other things, with my faculty I launched a Center for Design and Health and a Community Design and Research Center, and started the university’s first interdisciplinary minor, in sustainability. I was invited to serve on the boards of directors of the Charlottesville Community Design Center, and Charlottesville Tomorrow, among other boards. I invented and co-taught a course on design entrepreneurship, drawing on expertise in U Va’s business schools and our alumni base across the country.

Since returning to Gainesville, I have continued to use my professional expertise to serve the community. I have worked with friends and colleagues to support entrepreneurship and business skills development, with a focus on East Gainesville, known as the “Gainesville Homegrown Business + Entrepreneurship” effort. As a returning, visiting professor at UF, I taught an interdisciplinary studio on neighborhood-scale infrastructure, which allowed me to learn how the City’s networks of infrastructures work. More recently I have researched the variety of issues emerging around national affordable housing proposals, and presented my research publicly.

## Interests & Experiences

**Why are you interested in serving on a board or commission?**

---

I am a daughter of Gainesville whose roots go back to its beginnings. Gainesville means a lot to me. Having left for roughly 20 years I've always believed that "There's no place like home" and in 2014, I returned with a desire to give back to the community that has been so gracious in giving to, and shaping me. In my travels and my professional and civic pursuits, I gained a wealth of knowledge, experience and perspective that I want to put to use in the shaping of the place that I loved enough to come back to. This is an interesting and crucial time in the history of our city. The current social and political climates dictate the need for the actualization of the terms "equity" and "inclusion" in everything we do. It is my desire to use my knowledge and experience to move Gainesville closer to that ideal.

**How many terms have you served on this board or committee previously?**

---

0

Members of all City of Gainesville Advisory Boards and Committees must only serve two (2) consecutive terms, except for the City Plan Board, Development Review Board and Historic Preservation Board.

I am a licensed architect. I know how to read and understand architectural drawings, and how to envision the written language of planning—land use, zoning, comprehensive planning—in built form. Like learning any language, it takes a long time—years—to learn the spatial language of environmental design. This is the language I learned myself, one I have taught to generations of architecture students. To test my own assumptions and to challenge prevailing dogma, over my nearly four decades in practice, and as an academic architect, I have traveled the world looking at towns and cities to learn how architectural and urban proposals play out over time.

I hope to contribute these experiences and professional skills to the City of Gainesville Plan Board.
