Item Description:

Interlocal Agreement between Alachua County and the City of Gainesville for Recycling Processing

Recommended Action:

Approve agreement and authorize chair to sign

Prior Board Motions

A previous Interlocal Agreement between the City of Gainesville and Alachua County for Recycling Processing was first approved on February 14, 2017. This agreement has expired.

Fiscal Consideration:

During fiscal year 2018, the Material Recovery Facility (MRF) division of Solid Waste and Resource Recovery received in just over \$2.4 million in recycling revenue of which approximately 51% of the material came from the City of Gainesville and 49% from the County. With approximately half of the recycling material coming from the City of Gainesville, contracting with the City to bring their recyclables helps the MRF operate more efficiently due to economies of scale.

Background:

The operation of the materials recovery facility located at the Leveda Brown Environmental Park was taken over by the County in 2014. For an operation like this, the processing costs per ton are dramatically affected by the volume of throughput. By having the City of Gainesville commit to deliver all of their residential recyclable material to the County's facility, the County is able to better project their processing costs per ton and establish competitive rates in the fee schedule.

Manager's Talking Points

May 28, 2019

Talking Points for the Manager:

- Interlocal Agreement between Alachua County and the City of Gainesville for Recycling Processing
- Securing reliable streams of recyclables help County better project processing costs per ton and establish competitive rates on the fee schedule
- Rates in this interlocal agreement match the rates put forth for fee schedule update
