1 2	Section 1. Article XIII titled "DISADVANTAGED WORKERS REQUIREMENT" is hereby established within Chapter 2 - Administration, and reads as set forth below. The remainder of
3	Chapter 2 remains in full force and effect.
4	CHAPTER 2 - ADMINISTRATION
5	<mark>ARTICLE XIII</mark> – DISADVANTAGED WORKERS REQUIREMENT
6	Sec. 2-268. Findings of fact and intent.
7	(a) Findings.
8	(1) Journey level construction workers are retiring in numbers greater than the number of
9	applicants to replace those workers, creating shortages of skilled construction
10	workers. The construction industry is facing severe shortage of craft labor skills. The
11	lack of properly trained, qualified workers poses a threat to future capital
12	improvement projects.
13	(2) The City has a proprietary interest in developing a skilled workforce for its future
14	capital improvement projects. The shortage of craft labor skills is a challenge for the
15 16	City and its capital improvements projects. To address the issue, the City must create
16 17	a system through which disadvantaged workers can be properly trained in construction skills.
17	(3) As reported by the PEW Charitable Trust Foundation, being incarcerated reduces
19	hourly wages for men by approximately 11 percent, annual employment by nine
20	weeks and annual earnings by 40 percent.
21	(4) In November 2010, the Center for Economic and Policy Research released a study
22	titled, "Ex-offenders and the Labor Market," which found that a felony conviction or
23	imprisonment significantly reduces the ability of ex-offenders to find jobs, costing the
24	U.S. economy an estimated \$57 to \$65 billion annually in lost economic output.
25	Research conducted to isolate the effect of a felony conviction on employers'
26	willingness to hire found that 80 to 90 percent of employers said they would hire
27	"former welfare recipients, workers with little recent work experience or lengthy
28	unemployment, and other stigmatizing characteristics," but only 40 percent said they
29	would consider hiring job applicants with criminal histories.
30	(5) As reported by the American Bar Association Journal, a 2009 study sent job
31	applicants who were evenly matched, except that one of the two had a criminal
32	record, on job interviews. The criminal record reduced the chances of a callback by
33	50 percent.
34 25	(6) Unemployment is linked to increased crime and lowering the unemployment rate will
35 26	be a benefit to the safety of Gainesville residents. According to the Urban Institute,
36 37	employment is a top factor identified by incarcerated individuals as being critical to their ability to successfully reintegrate into the community and stay crime free.
57	then ability to successfully reintegrate into the community and stay clime nee.

38	(7) The City awards millions of dollars in contracts for construction projects each year			
39	which results in the creation of a wide variety of employment opportunities. The			
40	contracts are paid for by taxpayer dollars which should be used to increase			
41	employment opportunities and lower overall level of unemployment, increase			
42	consumer income, decrease levels of poverty and reduce the need for taxpayer funded			
43	programs in other areas.			
44	(8) The percentage of persons receiving public assistance benefits in Florida has			
45	increased by more than 50 percent since 2000. Requiring the employment of			
46	disadvantaged workers on major construction projects will promote economic			
47	security for persons working in the City and their families, decreasing the number of			
48	citizens in Gainesville who rely on public assistance.			
49	(9) In the event a prime contractor fails to comply with the requirements of this division,			
50	the City will sustain damages in an amount that is not readily ascertainable due to the			
51	loss of the benefits described in subsections (2), (7), and (8) above. Accordingly, the			
52	consequences for noncompliance in section 2-270(k) are intended to be reasonable			
53	and proportionate to the damage to the City that would be expected to follow from the			
54	loss of benefits described in subsections (2), (7) and (8) above.			
55	(b) Intent. The City desires to increase the number of employed disadvantaged workers to			
56	attempt to counteract the economic and social ills associated with the unemployment			
57	levels that exist within the City. It is the intent and policy of the City to require prime			
58	contractors to employ disadvantaged workers or have subcontractors employ
