4 **CHAPTER 2 - ADMINISTRATION**

5 **ARTICLE XIII** – APPRENTICE REQUIREMENT

6 Sec. 2-653. – Findings of fact.

Journey Level construction workers are retiring in greater numbers than the number of
applicants who are available to replace them, which in turn is creating a shortage of skilled
construction workers.

10 The shortage of skilled workers with craft labor skills poses a serious challenge not only 11 to the City and its capital improvement projects, but to the economic health of the community as 12 a whole.

The City recognizes that organized, formal apprenticeship training programs are an effective means of providing training and experience to individuals in construction skills and safety procedures. To this end, the City Commission has determined that City-contracted construction projects present a significant opportunity to promote and sustain employment of apprentices in the construction trades.
