# Diversion and Deflection Program

- The Gainesville Police Department Notice to Appear Program has been enhanced and is renamed Gainesville Pre-Arrest Program. Staff is currently working with the State's Attorney's Office to develop an MOU which will require concurrence from the Commission.
- A Program Coordinator has been hired to coordinate and manage the Gainesville Police Department's Pre-Arrest program.
- The GPA program began Monday, January 18, 2021 to all Sworn and FST personnel. Training was provided at every shift briefing throughout the week.
- All GPA'S will go through Program Coordinator and reviewed, prior to going to the State Attorney's Office.
- Continue to work on MOU with the State Attorney's Office regarding participation, Fees, and grievance process.
  - Participation fee is determined by the State Attorney's office; GPA Coordinator, City Manager and the State Attorney are collaborating to design services and accountability that are NOT predicated on a participants ability to pay the participation fee.

# Community Safety & Awareness Center

## AKA CSAC

When fully staffed, the CSAC operators will give officers real time intelligence on calls they are responding to.

The CSAC will have access to all traffic camera video feeds allowing for immediate situational awareness in case of emergency. These cameras are not recorded.

The CSAC also has access to city owned cameras along NW 1<sup>st</sup> Avenue and Bo Diddley. These are recorded and we store it for at least 30 days to adhere to public records laws. We are working to integrate additional cameras to increase awareness, especially around city owned buildings and parks.

# Community Safety & Awareness Center AKA CSAC

What the CSAC is not: We do not plan on having staff monitor cameras in the hopes of seeing a crime in progress

We do not have specific persons working as operators in the CSAC. We have not identified funding for the FTEs required. The CSAC is staffed during the day with Crime Analysts and Criminal Intel Unit staff. We purposefully staff it when big events are occurring, such as New Years Eve and Inauguration Day.

The CSAC would also monitor Licenses Plate Readers (LPRs)

# Status of Community Safety & Awareness Center AKA CSAC

The CSAC is operational but not fully staffed. We are trying to add additional camera and LPR capacity

# LPR's

LPRs are License Plate Recognition Cameras. The LPRs scan tags as cars pass and instantly run the tags against the national data bases. They then can alert us to stolen cars, Amber or Silver alerts, or wanted felony vehicles (like bank robberies or homicide).

LPRs can also be used for investigative purposes. The tag information is stored and we can search the database by vehicle make or tag information. (The hit-and-run traffic homicide from 2000 West University Avenue was solved using LPRs).

UF has installed several dozen LPRs all along the roads surrounding UF, including SW 13<sup>th</sup> St, SW 16<sup>th</sup> Avenue, University Avenue, and SW 34<sup>th</sup> Street.

We have a very strict policy regarding use of LPRs. Only for law enforcement purposes, just as driver's license information.

LPR data is stored historically for 365 days.

GPD has purchased 8 LPR cameras but they are not installed yet. 4 LPRs will cover the exits off of I-75 and 4 will be deployed at Waldo and 8<sup>th</sup> Avenue

We are in the process of adding 10 more LPRs, paid for with grant money, all for the eastside of Gainesville to help stop the gun violence issues.

# DRONE TEAM

Drones will only be deployed for situations that match Statue including:

- escaped dangerous criminals, like robbery or shooting suspect
- Missing persons
- Anytime we have a search warrant
- We cannot use for routine flights like a helicopter

We have 12 drones

All deployed to members and hopefully with 24 hour coverage which can be deployed directly from the vehicle.
