Question applies to Nature Centers Commission

Why are you interested in serving on the Nature Centers Commission?

Since moving to Gainesville to study at the University of Florida, I have found a passion for the autotrophic organisms that fuel human existence. I believe with my academic background in botany, sustainability, and conservation I would be a useful asset when discussing the ecological impacts and far reaching consequences of developments and alteration to our cities ecological web. Each week I visit the local parks of Gainesville to enjoy the flora and fauna, I would love to be an advocate for the many civilians who frequent our nature centers and have found a love for the life we have here.
