

DRAFT FOR DISCUSSION

City, County and School Board Resolution

Whereas, the City, County and School Board imagines growth and change in our community as equitable, sustainable and environmentally just.

Whereas, strong schools and strong neighborhoods are inextricably linked and critical to the health and vitality of our community.

Whereas, we agree that every resident of our communities should have a place to call home and that it is the role of government at all levels to advance safe, stable, and affordable housing.

Whereas, we imagine transit and infrastructure that is clean, efficient, universally accessible and reduces our impact on the natural environment.

Whereas, we imagine that decisions about growth and development should be made in deep collaboration with community members and grounded in advancing racial and economic equity.

Whereas, the time has come for all three boards to collaboratively address racial and academic inequities, housing inequities, broadband needs and transportation needs.

Now, therefore, be it resolved that the City Commission, County Commission and School board will work collaboratively to address housing, transportation and broadband needs and that the City and County support the School Board in the comprehensive school rezoning process as a pathway to address local racial inequities in education.
