

## COMMUNICATION WITH THOSE CHARGED WITH GOVERNANCE

Honorable Mayor and City Commissioners  
City of Gainesville, Florida

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Gainesville, Florida (the City) for the year ended September 30, 2020. Our report on the basic financial statements included a reference to the report of other auditors who issued separate communications relative to the Utility Fund. Professional standards require that we provide you with the information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated October 12, 2020. Professional standards also require that we communicate to you the following information related to our audit:

### Significant Audit Matters

#### *Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2020. We noted no transactions entered into by the governmental unit during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

#### *Accounting Estimates*

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events, and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the financial statements, excluding the Utility Fund, were:

#### ■ **Allowance for Doubtful Accounts and Bad Debt Expense**

Management's estimate of the allowance for doubtful accounts reduces the City's accounts receivable balances to the net realizable value in the statement of net position and increases the bad debt expense in the statement of revenues, expenses, and changes in net position in accordance with generally accepted accounting principles. Management's estimate is based on historical revenues, loss levels, and analysis of the collectability of accounts.

Honorable Mayor and City Commissioners  
City of Gainesville, Florida

■ **Net Pension and OPEB Liability and Related Deferred Outflows and Inflows of Resources**

The City's net pension and other post-employment benefits (OPEB) liabilities and related deferred outflows and inflows of resources of the City's Employees' Plan, Consolidated Pension Plan, proportionate share of the Florida Retirement System, and OPEB are estimates based on actuarial studies performed by a qualified actuary retained by the City. The actuarial valuation is based upon actuarial methods and assumptions which are selected based on risk and market factors affecting governmental entities of similar sizes, pension plan policies, and employee census information. The net pension and OPEB liabilities and related deferred outflows and inflows of resources are allocated based on retirement contributions made. These allocations are also considered significant estimates.

■ **Accumulated Depreciation and Depreciation Expense**

Management estimates accumulated depreciation and depreciation expense for capital assets using the straight-line method of depreciation and by determining estimated useful lives based on the classes of depreciable property described in the notes to the financial statements.

■ **Fair Market Value of Financial and Derivative Instruments**

As discussed in the notes to the financial statements, the City uses third party valuations for determining the fair market value of its financial and derivative instruments.

■ **Incurred But Not Reported (IBNR) Self Insurance Claims**

The City's calculation of IBNR costs are based on cost estimates developed by the City's actuary and third party administrator. Generally, the same cost estimates are used for both regulatory and accounting purposes. The annual IBNR cost estimate is recorded in the Self Insurance Fund of the City, which is classified as an Internal Service Fund within the City's Comprehensive Annual Financial Report.

We evaluated the key factors and assumptions used to develop these estimates in determining that they are reasonable in relation to the financial statements taken as a whole.

*Financial Statement Disclosures*

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were:

■ **Changes in Long-Term Liabilities**

A description of the City's outstanding long-term debt, including maturity dates, pledged revenues and changes during the fiscal year ended September 30, 2020, are disclosed in Note 13 to the financial statements.

■ **Restatements**

As described in Note 21 to the financial statements, the City restated its financial statements to correct errors related to the allocation of the Taxable Pension Obligation Bonds, Series 2003A to enterprise funds and to record accreted interest on the capital appreciation bonds.

The financial statement disclosures are neutral, consistent, and clear.

Honorable Mayor and City Commissioners  
City of Gainesville, Florida

*Difficulties Encountered in Performing the Audit*

The completion of the audit was delayed because of delays in receiving accurate and complete support schedules for the audit and the significant number of client prepared and audit adjustments posted to the records during the audit. The delays are attributed to turnover, limited staffing in the Budget and Finance Department, and allocation of some of those resources to the implementation of WorkDay.

*Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. A listing of such corrected audit adjustments and uncorrected misstatements is attached.

*Disagreements with Management*

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

*Management Representations*

We have requested certain representations from management that are included in the management representation letter dated April 15, 2021.

*Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the governmental unit's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

*Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

The following accounting pronouncements will be applicable in subsequent fiscal years:

- **GASB Statement No. 84, Fiduciary Activities** — The Governmental Accounting Standards Board (GASB) has issued GASB Statement No. 84, *Fiduciary Activities*, with an effective date for reporting periods beginning after December 15, 2019. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on: (1) whether a government is controlling the assets of the fiduciary activity, and (2) the beneficiaries with whom a fiduciary relationship exists. The City should evaluate its defined contribution plans for possible inclusion in its financial statements under this new standard.

Honorable Mayor and City Commissioners  
City of Gainesville, Florida

- **GASB Statement No. 87, *Leases*** — GASB has issued GASB Statement No. 87, *Leases*, with an effective date for reporting periods beginning after June 15, 2021. This new standard, with certain exceptions, will now require that all long-term, non-cancelable agreements involving the right-to-use of a non-financial asset be recorded as long-term lease liabilities on the balance sheet with a corresponding “right-to-use” intangible asset, both of which will be reduced over the life of the lease agreement.

The City has many agreements which may meet the definition of a lease under the new standard. We recommend that the City begin preparations to implement the new standard by making a list of all applicable agreements involving the right-to-use of a non-financial asset with their key terms, such as duration, renewal options, payment amounts and escalation clauses, cancellability, etc. for evaluation.

#### Other Matters

We applied certain limited procedures on Management’s Discussion and Analysis, Schedule of Revenues and Expenditures – Budget and Actual – General Fund, Employees’ Pension Plan, Police Officers’ and Firefighters’ Consolidated Retirement Plan, and OPEB Schedules of Changes in the Net Pension Liability and Related Ratios, Schedules of Employer Contributions, and Schedules of Annual Money-Weighted Rate of Return, and the Florida Retirement System and Health Insurance Subsidy Program Schedules of Proportionate Share of the Net Pension Liability and Related Ratios, and Schedules of Employer Contributions, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on combining statements and schedules of Nonmajor Governmental Funds, Nonmajor Enterprise Funds, Internal Service Funds and Fiduciary Funds, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the Transmittal Letter or Statistical Information, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

#### **Restriction on Use**

This information is intended solely for the use of the Mayor, City Commissioners, and management of the City, and is not intended to be, and should not be, used by anyone other than these specified parties.
