INDEPENDENT AUDITOR'S REPORT

Board of Trustees
City of Gainesville, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the Retiree Health Insurance Program, a fiduciary fund of the City of Gainesville, Florida, which comprise the statement of fiduciary net position as of September 30, 2020, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITOR'S REPORT

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Retiree Health Insurance Program as of September 30, 2020, and the changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, the accompanying financial statements present only the Retiree Health Insurance Program and do not purport to, and do not, present fairly the financial position of the City of Gainesville, Florida, as of September 30, 2020, the changes in financial position, or where applicable, its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Changes in City's Net OPEB Liability and Related Ratios; Schedule of City Contributions; and Schedule of Annual Money-Weighted Rate of Return be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

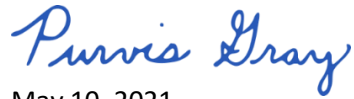

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 10, 2021 on our consideration of the Retiree Health Insurance Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Retiree Health Insurance Program's internal control over

Board of Trustees
City of Gainesville, Florida

INDEPENDENT AUDITOR'S REPORT

financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Retiree Health Insurance Program's internal control over financial reporting and compliance.

FINANCIAL STATEMENTS

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Note 1 - Plan Description

The Retiree Health Insurance Program of the City of Gainesville, Florida (the City) is a single-employer, other postemployment defined benefit (OPEB) plan that covers eligible retired employees. The Retiree Health Insurance Program, which is administered by the City, allows employees who retire and meet eligibility requirements under one of the City's retirement plans to continue medical coverage as a participant in the City's Retiree Health Insurance Program.

Membership

As of the latest actuarial valuation, Retiree Health Insurance Program membership consisted of the following:

Active Employees	2,307
Inactive Plan Members or Beneficiaries	
Currently Receiving Benefits	<u>1,431</u>
Total	<u><u>3,738</u></u>

Benefits Provided

Health Care Subsidies (Retirement Prior to September 1, 2008)

Prior to September 1, 2008, normal or early retirees are subsidized \$10.00 times the number of years of credited service plus one of the following:

- Plus \$5.00 times the numbers of years of age and portion thereof over 65, on the date that retiree first enters the retiree health insurance program or January 1, 2009, whichever is later; or
- Minus \$5.00 times the number of years of age and portion thereof under 65, on the date that retiree first enters the retiree health insurance program or January 1, 2009, whichever is later.

DROP participants who have entered a regular DROP before September 1, 2008, or who have declared their intention to reverse DROP before September 1, 2008, shall have the period of employment while in the regular DROP, or the period of employment after the effective date of commencement of participation in the (reverse) DROP, added to credited service for purposes of the calculation described above.

For disabled retirees, the amount that the City will contribute towards the required premium, for persons who become retirees based upon application for disability retirement submitted before September 1, 2008, will be an amount equal to:

- 80% of the individual premiums of the least costly city group health plan option being offered at that time.
- The City will contribute towards any other tier of coverage an amount equal to 150% of the individual premium of the least costly City group plan option being offered at that time.

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

For current retirees age 65 or older on January 1, 2009, the amount the City will contribute towards the required premium will be the greater of the amount contributed for the month of August 2008 or the amount determined under the provisions of the Retiree Health Insurance Program.

Health Care Subsidies (Retirement After August 31, 2008)

After August 31, 2008, normal or early retirees are subsidized \$10.00 times the number of years of credited service plus one of the following:

- a. Plus \$5.00 times the numbers of years of age and portion thereof over 65, on the date that retiree first enters the Retiree Health Insurance Program; or
- b. Minus \$5.00 times the number of years of age and portion thereof under 65, on the date that retiree first enters the Retiree Health Insurance Program.

DROP participants who have entered a regular DROP after August 31, 2008, or who have declared their intention to reverse DROP after August 31, 2008, shall not have the period of employment while in regular DROP, or the period of employment after the effective date of commencement of participation in the (reverse) DROP, count as credited service for purposes of the calculation described above.

For disabled retirees, the amount that the City will contribute towards the required premium, for persons who become retirees based upon application for disability retirement submitted after August 31, 2008, will be:

- a. For approved "in-line-of-duty" disabilities under the City's Police Officers' and Firefighters' Consolidated Retirement Plan or Employees' Pension Plan the City will contribute towards an individual premium an amount equal to:
 - i. 80% of the individual premiums of the least costly city group health plan option being offered at the time the disability retirement is approved.
 - ii. The City will contribute towards any other tier of coverage an amount equal to 150% of the individual premium of the least costly City group plan option being offered at the time the disability retirement is approved.
- b. For approved disabilities other than "in-line-of-duty", the City will contribute 50% of the amount described above.

Those who do not meet the age and service requirements above are eligible for coverage only. Retirees must pay 100% of the active premium rates up to age 65, then 100% of the Medicare supplement premium rate.

Contributions

The contribution policy of the City is established and may be amended by the City at any time. The annual contribution consists of the normal cost amount developed annually plus, given there is any unfunded actuarial accrued liability (UAAL), an amount to amortize said UAAL over 10 years from inception.

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

For the 2020 fiscal year, the City contributed \$856,568 in explicit premiums for OPEB benefits.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting. Employer contributions are recognized as revenues in the period in which employee services are performed. Retiree contributions are recognized as revenues in the period in which the retiree pays monthly retiree health insurance premiums. Benefits are recognized when due and payable.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make various estimates. Actual results could differ from those estimates.

Other Postemployment Benefits (OPEB) Trust Fund

These financial statements include only the Retiree Health Insurance Program, which is reported as an OPEB trust fund (the OPEB Plan) in the City's annual comprehensive financial report.

Note 3 - Cash and Investments

Cash and investments as of September 30, 2020 are classified in the accompanying financial statements as follows:

Statement of Net Position

Cash and cash equivalents	\$ 1,226,403
Equity in pooled cash and investments	2,706,774
Investments	58,243,242
Total cash and investments	<u>\$ 62,176,419</u>

Equity in Pooled Cash and Investments

The OPEB Plan maintains equity in the City's pooled cash and investments. The City, for accounting and investment purposes, maintains an internal investment pool that includes all of the City's cash deposits and investments, except for those monies which are legally restricted to separate administration or are administered by other agencies. The City's pooled cash and investments comprise deposits with financial institutions and investments in Florida PRIME, a pool of investments, administered by the State Board of Administration (SBA), whereby the City owns a share of the respective pool, not the underlying securities.

Deposits in financial institutions are collateralized as public funds through a state procedure provided for in Chapter 280, Florida Statutes. Financial institutions qualifying as public depositories are required to pledge eligible collateral having a market value equal to or greater than the average daily or monthly balance of all public deposits times the depository's collateral. The Public Deposit Security Trust Fund has a procedure to allocate and recover losses in the event of a default or insolvency. When public deposits are made in accordance with Chapter 280, Florida Statutes, no public depositor shall be liable for any loss thereof. All deposits of the City are either covered by depository insurance or are collateralized by the pledging financial institution's trust department or agent in the City's name.

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Rate of Return

For the year ended September 30, 2020, the annual money-weighted rate of return on the OPEB Plan investments, net of investment expense, was 0.25%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Investment Policy

These funds represent investments administered by the City's OPEB Plan Investment Managers. These investments are reported at fair value. The fair value is derived through valuation efforts done by the investment managers in conjunction with the OPEB Plan custodian. The fair values for the vast majority of these assets are readily available. For those assets whose fair value is less verifiable, the best available information is used.

The OPEB Plan maintains separate investment managers for its equity and fixed income portfolios. The managers are required to comply with Florida statutes, City ordinances, other applicable laws and with the fiduciary standards set forth in the Employees Retirement Income Security Act of 1974 at 29 U.S.C. Section 1140(a)(1)(A)(C). The managers of these funds are permitted to invest in the following instruments:

- Common Stocks
- Stock Index Futures
- Convertible and Preferred Stocks
- American Depository Receipts
- Real Estate Investment Trusts (REITs)
- Limited Liability Companies (LLCs)

Equity Funds (International)

- Restricted to managers specifically hired to invest in international equities.
- Common and Preferred Stocks of foreign issuers domiciled in developed and developing countries (emerging markets).
- Forward Foreign Currency Exchange Contracts for hedging purposes.
- American and Global Depository Receipts and similar securities.

Fixed Income Funds (Domestic)

- Must have a rating of investment grade (BBB/Baa) or better.
- United States Treasury and Agency Securities
- Commercial Paper with either a Standard & Poor's quality rating of A-1 or a Moody's quality rating of P-1 and a maturity of 270 days or less.
- Certificates of Deposit up to FDIC or FSLIC insurance coverage or any amount fully collateralized by United States Government Securities or issued by an institution which is a qualified public depository within the State of Florida.
- Corporate Bonds, Mortgage Backed Securities, or Asset Backed Securities
- Yankee Bonds
- Convertible Securities
- Money Market or Cash Equivalent Securities

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Fixed Income Funds (International)

- Investment Grade Sovereign Issued Debt
- Investment Grade Corporate Bonds and Commercial Paper

Cash Equivalents

- Certificates of Deposit, Commercial Paper, Direct Obligations of the U.S. Government, Repurchase Agreements, Bankers Acceptances, Custodian STIFs, and other appropriate liquid short-term investments.

Real Estate and Alternative Assets

- Discretionary commingled vehicles such as insurance company separate accounts, open-end or closed-end funds and REITS holding either leveraged or unleveraged positions in real property and real property related assets.
- All must be of institutional investment quality and must be diversified by property type and geographic location.

Pooled or Commingled Funds

- The fund may invest in commingled vehicles such as mutual funds, LLCs or common trust funds that are invested in substantially the same manner and same investments as stated above.

Derivatives

- No use of leverage.
- No use of “linked” securities that have the principal value or interest rate tied to anything not specifically allowed as permissible investments in these guidelines.
- Any structured note must maintain a constant spread relationship with its underlying acceptable index.
- Collateralized mortgage obligations cannot be more sensitive to interest-rate changes than the underlying mortgage-backed security.

Restricted Direct Investments – Prohibited

- Short Sales or Margin Transactions
- Investments in Commodities or Commodity Contracts
- Direct loans or extension lines of credit to any interested party.
- Letter Stock
- Unregistered securities and private placements (except those regulated by SEC Rule 144a or as specifically permitted by the Board of Trustees).
- Investments and assets for which a generally recognized market is not available or for which there is no consistent or generally accepted pricing mechanism, unless specifically permitted by the Board of Trustees.

The City also imposes the following limitations on its investment managers:

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Equity Managers

- The equity portion of each portfolio manager shall not be more than 10% invested in the securities of any one company at fair value.
- The portfolio manager shall not make short sales or use margin or leverage.
- The portfolio manager shall not be invested in commodities, private real estate, or investment art objects.
- The portfolio manager shall not invest in options, including the purchase, sale, or writing of options unless options are “covered” by the corresponding security.
- The portfolio manager shall not invest in warrants, although warrants issued in connection with stocks held by the fund may be sold, held, or converted by the investment manager at its discretion.

Fixed Income Managers

- Security ratings reduced beneath the three highest classifications after purchase should be sold by the portfolio manager within a reasonable period of time.
- Except for treasury and agency obligations, the debt portion of the OPEB trust fund shall contain no more than 10% of a given issuer irrespective of the number of differing issues.
- If commercial paper is used, it must be only of the highest quality (A-1 or P-1).
- Private placement debt is not permissible.

Custodial Risk - Deposits

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and they are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution’s trust department or agent, but not in the OPEB Plan’s name. All deposits of the OPEB Plan are either covered by depository insurance or are collateralized by the pledging financial institution’s trust department or agent in the OPEB Plan’s name.

Custodial Risk - Investments

Investment securities are exposed to custodial credit risk if they are uninsured and are not registered in the name of the OPEB Plan and are held by either the counterparty or by the counterparty’s trust department or agent but not in the OPEB Plan’s name. All identifiable investment securities of the OPEB Plan are either insured or are registered in the custodian’s name for the benefit of the OPEB Plan and held by the counterparty’s trust department or agent.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment policies described above provide guidelines for the credit ratings of specific types of investments. Presented below is the rating as of year-end for each investment type:

Investment Type	Fair Value	Exempt from Disclosure	AAA	AA
Equities	\$ 48,235,657	\$ 48,235,657	\$ -	\$ -
Limited Partnerships	7,856,198	7,856,198	-	-
U.S. Treasury/Agency Securities	735,986	-	735,986	-
Corporate Bonds	670,299	-	-	670,299
Mortgage/Asset Backed Securities	745,102	-	-	745,102
Totals	\$ 58,243,242	\$ 56,091,855	\$ 735,986	\$ 1,415,401

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Concentration of Credit Risk

The Plan's investment policies do not specifically restrict the concentration allowed to be held with any individual issuer, except that the equity portion of each portfolio manager shall not be more than 10% invested in the securities of any one company at market value.

No investments in any one issuer exceed 5% of total OPEB Plan investments.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater is the sensitivity of its fair value to changes in market interest rates. The OPEB Plan's investment policies do not provide specific restrictions as to maturity length of investments. Information about the sensitivity of the fair values of the OPEB Plan's investments to market interest rate fluctuations is provided below, using the segmented time distribution method:

Investment Type	Fair Value	Exempt from Disclosure	< 2 Years	2-5 Years	5-10 Years	> 10 Years
Equities	\$ 48,235,657	\$ 48,235,657	\$ -	\$ -	\$ -	\$ -
Limited Partnerships	7,856,198	7,856,198	-	-	-	-
U.S. Treasury/Agency Securities	735,986	-	111,893	235,571	388,522	-
Corporate Bonds	670,299	-	40,898	462,483	166,918	-
Mortgage/Asset Backed Securities	745,102	-	-	-	-	745,102
Totals	\$ 58,243,242	\$ 56,091,855	\$ 152,791	\$ 698,054	\$ 555,440	\$ 745,102

Note 4 - Fair Value Measurements

The OPEB Plan records assets and liabilities in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, which determines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurement.

Fair value is defined in GASB Statement No. 72 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Fair value is a market-based measurement for a particular asset or liability based on assumptions that market participants would use in pricing the asset or liability. Such assumptions include observable and unobservable inputs of market data, as well as assumptions about risk and the risk inherent in the inputs to the valuation technique.

As a basis for considering market participant assumptions in fair value measurements, GASB Statement No. 72 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

- Level 3 inputs are unobservable inputs that reflect the OPEB Plan's own assumptions about factors that market participants would use in pricing the asset or liability (including assumptions about risk).

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt and equity securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Real estate investments are valued by market assumptions provided by the individual managers of each fund. The managers determine the fair value of the underlying investments of the fund then allocate their fair value to the OPEB Plan's investments based on the percentage of ownership it has in the fund. For investments in certain entities that calculate net asset value (NAV) that do not have a readily determinable fair value, the OPEB Plan is permitted to report fair value on the NAV per share as a practical expedient, where certain conditions are met. Such measurements are included within the disclosure, but should not be classified as Level 1, Level 2, or Level 3 within the hierarchy.

Fair value measurements are performed on a recurring basis. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Management's assessment of the significance of a particular input to the fair value measurement requires judgement and may affect the valuation of fair value assets and liabilities and their place within the fair value hierarchy levels.

The following table summarizes the OPEB Plan's assets for which fair values are determined on a recurring basis:

	September 30, 2020	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Investments by Fair Value Level				
Equities	\$ 48,235,657	\$ 48,235,657	\$ -	\$ -
U.S. Treasury/Agency Securities	735,986	735,986	-	-
Mortgage/Asset Backed Securities	745,102	-	-	745,102
Corporate Bonds	670,299	-	670,299	-
Total Investments by Fair Value Level	\$ 50,387,044	\$ 48,971,643	\$ 670,299	\$ 745,102

Investments Measured at Net Asset Value (NAV)	Total Investments	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Real Estate Strategies ¹	7,856,198	-	Quarterly	60 Day Written, Subjective
Total Investments Measured at NAV	7,856,198	-		
Total Investments	\$ 58,243,242			

¹*Real Estate Strategies* – This type includes one core private real estate fund comprised of commercial and residential real estate investments as of September 30, 2020. Participation in this fund is through a limited partnership with ownership measured in shares of partners' capital. These holdings are typically illiquid with redemption requests permitted with 60 days written notice prior to the end of the quarter, subject to certain restrictions and the availability of cash.

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Note 5 - Net OPEB Liability of the City

The net OPEB liability related to the OPEB Plan was measured as of September 30, 2020, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of October 1, 2019, rolled forward to September 30, 2020.

The components of the net OPEB liability at September 30, 2020, were as follows:

Total OPEB liability	\$ 64,015,882
Plan fiduciary net position	<u>(62,009,254)</u>
City's Net OPEB Liability	<u>\$ 2,006,628</u>

Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	96.87%
---	--------

Actuarial Assumptions

The total OPEB liability was determined by an actuarial valuation as of October 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation Rate	3.00%
Investment Return Rate	7.90%
Salary Increase	Service Based
Discount Rate	7.90%
Healthcare Cost Trend Rate	8.30% to 4.50%

Changes since the prior valuation include changes in census data, updated annual per capita claims costs based on plan experience, and updated premium rates to reflect those effective for 2020 fiscal year.

Discount Rate

The discount rate used to measure total OPEB liability was 7.9%. The projection of cash flows used to determine the discount rate assumed the OPEB Plan members' contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on the OPEB Plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Mortality Rates

All mortality rates were based on the RP-2000 mortality tables. All mortality rates are those outlined in Milliman's July 1, 2018 Florida Retirement System (FRS) valuation report.

**RETIREE HEALTH INSURANCE PROGRAM
OF THE CITY OF GAINESVILLE, FLORIDA
NOTES TO FINANCIAL STATEMENTS**

Long-Term Expected Rate of Return

The long-term expected rate of return on the OPEB Plan's investments can be determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. For the year ended September 30, 2020, the annual money-weighted rate of return on investments, net of investment expense, was 0.25 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts invested.

The following reflects the current target allocation and expected returns:

	Target Allocation	Long-Term Expected Rate of Return
Large Cap Value Equity	19.44%	6.00%
Large Cap Growth Equity	19.44%	5.90%
Small Cap Value Equity	11.11%	6.10%
Small Cap Growth Equity	11.11%	4.90%

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 7.9%, as well as what the Plan's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.9%) or 1 percentage point higher (8.9%) than the current rate:

	1% Decrease (6.90%)	Current Discount Rate (7.90%)	1% Increase (8.90%)
Net OPEB Liability (Asset)	\$ 8,472,164	\$ 2,006,628	\$ (3,517,945)

Sensitivity of the Net OPEB Liability to Changes in the Trend Rate

The following presents the net OPEB liability, calculated using the health care cost trend rate, as well as what the Plan's net OPEB liability would be if it were calculated using the health care cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1% Decrease	Current Trend Rate	1% Increase
Net OPEB Liability (Asset)	\$ (4,519,566)	\$ 2,006,628	\$ 9,737,262

Notes to Schedule

Differences Between Expected and Actual Experience - Fiscal year 2020 reflects the impact of changes to the census data from the prior valuation to the valuation as of October 1, 2019.

Changes of Assumptions -- Changes of assumptions reflect the effects of changes in the discount rate each period.

- For measurement date 9/30/2020, changes of assumptions includes changes due to claims experience and premium rates.
- For measurement date 9/30/2019, investment rate was reduced from 8.00% to 7.90%.

Census data reflects changes in status for the twenty-four (24) month period since October 1, 2017, resulting in an increase in annual covered payroll.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
City of Gainesville, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Retiree Health Insurance Program, a fiduciary fund of the City of Gainesville, Florida, (the City) which comprise the statement of fiduciary net position as of and for the year ended September 30, 2020, and the related statement of changes in fiduciary net position for the year then ended, and the related notes to the financial statements, which collectively comprise the Retiree Health Insurance Program's basic financial statements, and have issued our report thereon dated May 10, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Retiree Health Insurance Program's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Retiree Health Insurance Program's internal control. Accordingly, we do not express an opinion on the effectiveness of the Retiree Health Insurance Program's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, as disclosed in our report dated April 15, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, included in the City's 2020 Annual Comprehensive Financial Report, that

we consider to be material weaknesses, and could also impact the Retiree Health Insurance Program. Management's response to those findings is also included in the City's 2020 Annual Comprehensive Financial Report.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Retiree Health Insurance Program's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Retiree Health Insurance Program's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
