Subject:	1516 N Main St. Please see attached 31 pages for May 27th Meeting
Date:	Monday, May 17, 2021 5:32:16 PM
Attachments:	1516 N Main St First 24 pages.pdf 1516 N Main St Last 7 pages.pdf

Our objective is to keep the non conforming use status at 1516 N Main St., in order to allow vehicle sales with outdoor display. Provided below is documentation supporting that the property was not abandoned.

The property at 1516 N Main was not abandoned or vacant for longer than three months (October, November, and December of 2020). The documentation indicates the property was in use and active until September 2020. The property was definitely not abandoned, which is supported by the following:

- We have attached the commercial lease with extensions on the lease until May 10, 2021 signed by the owner of the property at the time, Ms. Venda Lewis of Lewis Oil Company, on May 2018
- 2. We have attached GRU bills for an active account for the months of March 2020, April 2020, May 2020, June 2020, July 2020, August 2020, and September 2020. The month of September shows a spike as the property was cleaned and vacated. I need the City Planners to realize this is also the time of the 2020 Pandemic Covid-19 restrictions in our Community, accounting for the voltage usage to drop since the CDC and The White House requested businesses to close and workers to stay home and that they would issue stimulus money to pay for mortgage, rents, payroll, and utilities. As you can see on page 2 of September's GRU bar graph for this 200 square foot office, that it directly correlates to decreased public activity and outings during Covid. (May I note even City Employees were asked to stay at home during this time.) City Staff has concurred the business was open in April and May of 2020, confirming the photos of the car was legitimate. These months have the same billing as June, July, August, and September
- We have a signed and notarized statement from the manager of operations at Community Overdrive that he was active at 1516 N Main St. until September 28, 2020
- 4. We have a statement from Ms. Venda Lewis of Lewis Oil Company, owner of the property at the time, that to her recollection there was activity by her tenant until August 2020
- 5. We have a statement from the owner at Auto Plaza located at 2222 N Main St that Community Overdrive was conducting business until August 2020
- 6. We have a statement from the manager at Tire Outlet at 1320 N Main St that Community Overdrive was active until September 2020
- 7. We have a statement from the owner at Gator City Motors at 1700 N Main St that Community Overdrive was active until August or September 2020
- 8. We have a statement from the owners of Magic Imports at 1725 N Main St that Community Overdrive was in operation until September 2020
- 9. We have a statement from the owner at First Place Auto Sales, Inc. at 638 N Main St that Community Overdrive was still in operation around August and

September 2020

- <!--[if !supportLists]-->10. <!--[endif]-->We have a statement from the owner at Next Generation Auto Sales at 2202 N Main St that Community Overdrive was operating until August or September 2020
- 11. We have photos of the business active and advertising in April and May 2020. We believe the lack of advertising after this period may be due to uncertain times and the request of the CDC for individuals to stay home
- 12. We have attached three photos of the business open. One photo which staff has presented from Google maps (with an unknown time stamp). A second one which we found on FaceBook showing the lot full of cars in April. A third photo which includes an announcement was posted in May 2020. With the reduction of business activity due to Covid and the closure of in person auto auctions, in my professional opinion after doing auto sales for 35 years, that it would have taken Community Overdrive a minimum of three (3) months to dispose of or wholesale these vehicles
- 13. In addition, Wilfred Baker remodeled the property after Community Overdrive moved out. He presented his lease to the DMV for his dealer license in December 2020. He was informed by the DMV that the City of Gainesville had notified them not to issue a license with the allowable continuous use of a BA zoning. He was informed that the City Planning Dept of Gainesville had (prematurely and incorrectly) notified them that no license was to be issued. Mr. Wilfred Baker should have rightfully received his dealer license, <u>as he was</u> within the time statute for non conforming usage. Upon receiving this license he would have been operational that month, thus never breaking the chain of occupancy in question

We believe we have taken on the burden to present relevant evidence to establish that the use has not been abandoned. We therefore ask you to issue a permit with the non abandoned usage to allow outdoor display of vehicles.

We truly appreciate your time and consideration in this matter.

Thank you,

Mohammad Rajaee FJD Enterprise LLC Our objective is to keep the non conforming use status at 1516 N Main St., in order to allow vehicle sales with outdoor display. Provided below is documentation supporting that the property was not abandoned.

The property at 1516 N Main was not abandoned or vacant for longer than three months (October, November, and December of 2020). The documentation indicates the property was in use and active until September 2020. The property was definitely not abandoned, which is supported by the following:

DUE TO YOUR ACCOUNT HISTORY, PAYMENT BY CHECK WILL NOT BE

If you smell natural gas at your business, leave the area immediately; then call GRU at 352-334-2550 to report the problem. Natural gas contains a chemical that smells like rotten eggs to help you detect a possible leak.

Energy savings tip: Replace incandescent bulbs in exit signs with LEDs, and save about 90 percent on signage operating costs. If LEDs are not compatible with your current sign, a new sign could pay for itself within a year. Learn more at gru.com/saveenergybiz.

Have a qualified technician test, clean and adjust your heating equipment to increase efficiency and save money. This typically includes replacing dirty air filters; cleaning blower colls and heat exchanger surfaces; and adjusting beit drives, damper valves and linkages.

Energy savings tip: To save money, use smart power strips to regulate energy use on equipment such as computers, copiers and printers. Get more tips at gru.com/saveenergybiz.
