12/10/20	200560	Commissioner Gigi Simmons - Health Equity and Access Advisory Group Update	12/10/2020	City Manager	At the GPC meeting on 12/10/20, there was the following motion: Motion: 1) Assess the city's real estate assets, including GTEC, which could be used to create a public-private partnership to expand health care services in East Gainesville (specifically in zip codes 32609 and 32641); 2) Determine if existing Economic Development incentives (city, county, opportunity zone) may assist in recruiting health care services/providers to East Gainesville (specifically in zip codes 32609 and 32641); 3) Direct staff to bring back information for a pilot program, including cost to improve transportation access to health care services for impacted zip codes (32609 and 32641); 4) Research and report back to the Commission on a health insurance risk pool; and 5) Next phases of the community resource para-medicine program and analysis of the most services and barriers to those services. New referral from 12/10/20. Completed 12/10/20. A the 2/25/21 GPC meeting, there was the following motion: 1) City Manager to identify a funding source and placeholder in the amount of \$3-\$5 million for a community grocery. 2) Have our office of
2/25/2021	180257	Food Access		City Manager	Communication and Engagement coordinate with Grace Grows Community Food. Planning Project to assist in planning and executing a community engagement process that will be driven by people that will be primarily served by the grocery. 3) The engagement process should include, but not be limited, to the following: a. Define and develop a definition and shared understanding of a community grocery. b. Community visioning process-What are the important considerations for developing a community grocery to serve east Gainesville and the eastern part of the county-examples; a cafe, supervised children's area, prepared foods, live in store performances, etc. c. Community identified locations. Answer the question-where do you think a grocery store is most needed? Specific locations and areas of the city should be identified. d. Ownership model (give options for types of ownership models) and operations model. 4) Research and come back to the Commission with the mechanism for accomplishing this goal. Example; RFP, assist an organization in building capacity to lead this project, a public/private partnership, government run, etc. 5) City identify potential locations for a community grocery with a focus on publicly owned land; City, County, School Board. 6) Have a conversation with the County about ways to collaborate since the location of this grocery will benefit the eastern part of the County such as Hawthorne, Micanopy and Waldo. 7) Identify funds to conduct a leakage study. Major grocery stores systematically reject the opportunity to locate in neighborhoods due to their misperception that these neighborhoods lack spending potential. a leakage study will help us understand where people are shopping and how much money is "leaking" to other areas of the city and out of town. Leakage study will show that there is sufficient spending power to support food retail, as well as address issues deemed important by staff and the Commission. 8) Identifying barriers and restrictions for zoning in low food access areas. Completed.
=, =0, =0==	180487	Commission Guidelines	7/19/2018	Clerk of Commission	At the 5/23/19 meeting, the motion was to move forward with the policy process. The City Commission will be discussing this at a special meeting scheduled for January 22, 2019. At the GPC meeting of 12/13/18 this item was withdrawn. At the GPC meeting of 10/25/18, the Committee made a motion: Direct staff to come back with other models at the December GPC meting (staffing, process and prioritization).
