Discussed

MEMBER COMMENT

The committee heard updates by various departments regarding their communications efforts. Mr. Woods clarified his department's supportive role, adding that departments such HR, Parks, Rec & Cultural Affairs spearhead their own advertising initiatives and do not always involve his office. Chair Goston noted the City did not have a good history of getting info disseminated and more could be done as it pertains to informing the public the OEO's role/functions, for instance. Chair Goston asked about the advertising program previously used by the City. In response, Mr. Woods noted this program ended due to lack of funding. He stated the Communications Dept. Operational Budget is very small and Ads are decentralized to departments due to this. Despite this, Mr. Woods noted several resources are utilized for communications these include minority-owned newspaper, the Gainesville Sun (for the job fair), social media, Channel 12 among others. Chair Goston recommended the use of intern from UF's College of Journalism and Communications and other funding sources like GRU Community Relations Low-income Energy Efficiency (LEEP) program. Chair Goston highlighted additional concerns regarding message redundancy and accuracy. Mr. Woods stated he is currently looking at the Communications budget/funding, with Budget & Finance and the City Manager's office. He has also started an internal campaign aimed at informing employees on what the OEO does.

Magi Crawford provided GRU's Communications update. Ms. Crawford noted she meets with Mr. Woods monthly in the coordination of efforts and would love to work with him collaboratively on marketing and communications efforts. Ms. Crawford also provided additional background information on the LEEP program
