SW 6th Street Project - 5th Supplemental Agreement to the Professional Design Services Agreement (B)

This item is a request for the City Commission to approve the supplemental agreement and any related documents for professional design services for the SW 6th Street Project by Comprehensive Engineering Services, Inc.

On October 18, 2012, the City Commission authorized contract negotiations with Comprehensive Engineering Services (CES) for professional design services for the SW 6th Street Project (legislative file #120445.) CES is currently finalizing plans for the project, which spans from West University Avenue to SW 5th Avenue. The fifth supplemental agreement includes services that were unanticipated during the early stages of design, such as the realignment with the restriping project south of SW 5th Avenue, coordination and drainage modifications to accommodate the Ingenuity Building (on the southwest corner of SW 4th Avenue and SW 6th Street), and an alternative decorative lighting review (at the CRA’s request). This amendment also encompasses limited post design services and an extension through the end of construction.

Funding in the amount of \$54,455.39 is allocated and identified from the SW 6th Street CIP funds.

The City Commission authorize the City Manager or designee to execute the supplemental agreement and other necessary documents for professional design services for the SW 6th Street Project by Comprehensive Engineering Services, Inc., subject to approval by the City Attorney as to form and legality.
