Staff has researched “point of sale” efficiency requirement programs, considered efficiency standards for rental property compliance where landlords can receive discounted license fees, and planned for active promotion of “Tools for Tenants” to raise awareness of the resource. This information will be

presented per the RUC's request.

The Regional Utilities Commission (RUC) receive a presentation from staff on potential standards and requirements for property "point-of-sale" ordinance to include a spending cap for energy efficiency improvements, standards for landlord compliance to receive discounts on license fees, and active promotion of "Tool for Tenants".
