Water Conservation Month, April 2022 (B)

Each year municipalities across the country declare April as Water Conservation month to promote awareness for water conservation and the importance of water as a vital natural resource. This is an opportunity to inform the public about our high-quality drinking water and the vital role drinking water plays in our daily lives. Citizens are asked to know their groundwater source and to conserve and protect this valuable natural resource for future generations.

The Mayor's Challenge Water Conservation Contest: The Wyland Foundation sponsors an annual national water conservation contest that encourages citizens to take a pledge to save water in their daily activities. This is a fun competition that promotes the importance of water conservation behavior. Pledge to conserve water at <https://www.mywaterpledge.com>.

Debbie Daugherty and Jennifer McElroy will accept the proclamation on behalf of GRU.
