Third Year Status Report of Plan to Achieve Maximum Energy Efficiency (B)

The City Commission has asked the staff to implement programs to help achieve maximum energy efficiency and provide quarterly reports regarding progress.

In July of 2006 staff began implementation of an aggressive Energy Efficiency Program. Starting October 2006 numerous programs have been implemented to help achieve maximum cost-effective energy efficiency. The presentation will provide a synopsis of last year's activities along with the first three year results and what is planned for in FY'10.

The City Commission hear a presentation from staff of the three year results along with status of measurement, verification, evaluation and modifications to the programs.

There is no fiscal impact from this status report.

Prepared by Bill Shepherd, Energy & Business Services Manager
