The report must generally include the following information:

- 3) a statement setting forth the plans of the City for extending to the area to be annexed each major municipal service performed within the municipality at the time of annexation, including:
  - a) plans for extending urban services on the date of annexation on substantially the same basis and in the same manner as such services are provided within the rest of the municipality prior to annexation.
  - b) plans for the extension of existing municipal water and sewer services into the area to be annexed so that, when such services are provided, property owners in the area to be annexed will be able to secure public water and sewer service according to the policies in effect for extending water and sewer lines to individual lots or subdivisions.
  - c) if extensions of major trunk water mains and sewer mains into the area to be annexed are necessary, set forth a

proposed timetable for construction of such mains as soon as possible following the effective date of annexation.

d) set forth the method under which the City plans to finance extension of services into the area to be annexed.

If adopted on first reading, this ordinance shall be heard on second reading on September 10, 2007. After final adoption by the City Commission, a copy of this Report will be filed with the Alachua County Board of County Commissioners.
