Sixth Street Corridor Rail Trail Project - 90% Design Presentation (B)

This item is a presentation by the Public Works engineering staff on the Sixth Street Corridor Rail Trail, which is currently at the 90% design stage.

The Sixth Street Corridor Rail Trail project is underway and this presentation is intended to inform the City Commission of the design progress on this project and present the design intent and projected direction, including the current project schedule.

There is no fiscal impact to the City of Gainesville at this time.

The City Commission: 1) hear the staff presentation; and 2) provide input and guidance as appropriate.
