**Type:** Discussion Item      **Status:** Passed

**File created:** 5/7/2009      **In control:** General Manager for Utilities

**On agenda:**      **Final action:** 5/7/2009

**Title:** Evaluation of Biomass-Fueled Generation Facility Proposals (B)

On May 12, 2008 the City Commission authorized the General Manager to negotiate and execute a purchased power agreement (PPA) for the output of a nominally 100 mega-watt (MW) net power plant, fueled with biomass and located on the Deerhaven Power Plant site. Negotiations have been successfully concluded, but because of adjustments to the initial proposal to reflect changing fuel prices, demand for electricity, and power plant construction costs, the General Manager has decided to advise the City Commission of these negotiated changes, their economic implications and to submit the executed PPA to the Commission for final approval.
