### Traffic Engineering Services Agreement with Alachua County for Fiscal Year 2001-2002 (B)

For twenty-four (24) years, the City of Gainesville and Alachua County have entered into an annual agreement for maintenance of traffic signals and traffic engineering services. Under terms of this agreement, the City of Gainesville maintains and operates all traffic signals, flashing school beacons and flashing warning beacons in the unincorporated area of Alachua County. In addition, the City assists Alachua County with traffic signal design and construction inspection activities. The agreement has prevented duplication of services and resulted in significant cost savings for both the City and County. The agreement also provides a mechanism for the County to reimburse the City for traffic counts, traffic accident studies, and traffic signal design activities the City performs for the County. The County's contribution for traffic signal maintenance is based on the current number of traffic signals in operation in the unincorporated Alachua County. This agreement will be effective upon approval by both parties and terminates September 30, 2002.

The City will receive \$144,544.95 in revenue from the County, in monthly payments of \$12,045.41, plus the costs for materials for traffic signal maintenance and operation for FY 2001-2002 that will be billed separately.

The City Commission authorize the City Manager or designee to execute the Traffic Engineering Services Agreement between the City and Alachua County for traffic engineering services for the period of October 1, 2001, through September 30, 2002.
