### Bid Award for Installation of Oil Water Separator with Canopy (B)

On August 23, 2005, the Purchasing Department solicited bids for the installation of an Oil Water Separator with Canopy for the Regional Transit System (RTS) maintenance facility. Three (3) proposals were received from fifteen (15) plan holders. After the evaluation of the bids, Oelrich Construction was deemed to be the low responsive bidder.

Funds are available in the RTS FY2006 operating budget.

The City Commission: 1) award the bid to Oelrich Construction for installation of the oil water separator with canopy for the RTS maintenance facility; and 2) authorize the City Manager or designee to execute a contract with Oelrich Construction in the amount of \$69,900, subject to approval of the City Attorney as to form and legality.
