Interlocal Agreement Between City of Gainesville and Alachua County Sheriff for Administration of City's False Alarm Ordinance (B)

On May 8, 2000 the City Commission passed an ordinance regulating burglar and robbery alarms, which establishes a registration fee and fine system for false alarms. The administration of this ordinance would be an integral function of the Combined Communications Center. This interlocal agreement would designate the Sheriff as the entity responsible for implementing and administering the City's False Alarm Ordinance.

The Sheriff will deduct the City's share of personnel and operating expenses and equipment costs from the total funds collected on behalf of the City; the remainder shall be deposited into the budget for the Combined Communications Center to offset the City's costs to fund the Center.

The City Commission authorize the City Manager to execute the Interlocal Agreement between the City of Gainesville and Alachua County Sheriff for Administration of the City's False Alarm Ordinance, subject to approval by the City Attorney as to form and legality.
