Automotive Fuel Stations are permitted by right within an Automotive Oriented Business (BA) Zoning. However, the applicant is requesting six additional gas pumps (for a total of 12) which requires an approval via the Special Use process. Furthermore, the Fuel Station will have an associated car wash. Due to the property's adjacency to a residential zone, the applicant is proposing a lot split to separate the proposed fuel station from the proximity to the residential unit. Approval of Special Use Permit is contingent on the approval of the Lot Split.

None.
